Do we have a date on when renguard 1.04 will be released? (or at least a ballpark date?) I'm tired of getting force rg'd by people who don't know that you can go into 3rd person, and how easy it is to aim the ramjet in 3rd person.

Well for the last 6 months every time it has been asked we are told that it is being tested and it will be a "few weeks". So if you count 24+ weeks as a few then they are right on track ...

Well, he most likely can't give you a date on Renguard 1.04, but I can guarentee he probably could give you a very exact date on Renguard 1.032 .
