ok i downloaded rengaurd 1.03 and when it does the precheck install thing for the core patch it
says there are corrupt files and that i need to download fixed copies and extract them to the data
directory. i dont know what files i need to download and i try to klik the links rengaurd shows me it
"always" and "scripts" please someone help me i wanna play Renegade really bad

ok i feel stupid now, i went to school and when i came back i tried to open renegade again to take
a screenshot and the links worked wich they didnt before so i dunno what happened and also, is
that a mod making that gun look like a M16 in ur avatar? if so and if you dont mind could you tell
me which one it is and how i make a mod work cuz im new to renegade (as if u hadnt guessed)

TYVM and sorry if i wasted ur time with stupid questions
