I'm pretty sure your friend is full of shit. If you're trying to run a LAN game or Internet game with only one player, make sure you set the Maximum Players to "1". Otherwise, attempting to run a game which has no "Gameplay is Pending" message to it is quite impossible without modifications.(Such as the Co-Op Missions modification.)

Ah. So it's not unique to the Co-Op Single Player missions. Fascinating. I do suppose you learn something new everyday.
