Go buy it. It's \$5. Also, multi-posting is bad.

I'd consider giving up the serial to my broken CD set, since it is of no further use to me... if I could find the jewel case for that CD set. Since you already found a sucker, though, I couldn't be arsed to look. That and the fact that you haven't even tried to get your own copy (3 weeks ain't that long to wait, really).

umm to the guy who gave me his SN, thnx a lot dude, but i need you to delete one of the accounts registered to that SN for me.

Pleeeeaaase? there are like 3 yuriman__ (random number) accounts on there and 6 others and i need one of them to be deleted b4 i can play on this serial.

also if any of you others may consider giving me an SN that would be much appreciated,

You have the serial, you can pretty much do it yourself. However, since he put the number publicly, anyone else could do it and screw you over.
