Just today, I uninstalled renegade because it wasn't loading properly. When I tried to reinstall, no text appeared anywhere on the installation screens. For example, here is a screenshot of the user agreement screen... there's no text, and I can't press "I agree" or anything... can anyone help?

Picture is in the attachment

tahnks guys

Uninstall, delete your Renegade folder, and the Renegade folder in the Registry(HKEY\_LOCAL\_MACHINE\SOFTWARE\Westwood\Renegade\), and then try installing and it should work. I had this same problem..
