Actually chief, we went over this twice and none of you (that's right, NOBODY HERE.... lol) could refute my statements (you especially. I think the closest thing you got to a valid argument was "we're used to the auto ladder even though it doesn't work". Nice of you to get the situation completely upside-down.

I propose you check [www.renegadewiki.com](http://www.renegadewiki.com) and look for "clans". There you'll get some websites.

You could also join a couple of servers, ran by clans and play there a bit, check if you like their

mentality.

www.paclan.co.nr - request a tryout if you are interested or drop by our alliance forum  
www.shadownetwork.co.nr, we have four clans operating from there so sure one of them will suit you.

trpmr why not visit as well and request a clanwar so we can shut you the fuck up - and why not get on cw.cc and play some real clans rather than talking shit with nothing to back it up.

a list of cw.cc clans is here if you are good enough to play competitively:  
[http://www.clanwars.cc/Leagues/U\\_ClanRankings.aspx](http://www.clanwars.cc/Leagues/U_ClanRankings.aspx)

Don't listen to Dave, he's just mad because he gets kicked out of every clan he joins.

You, sir, are retarded. And anyone at that "ad infested site" (which has no ads... wtf?) would rape the shit out of your clan. Sorry, but all of your members pretty much suck except for 16, who's half decent.

HOW DARE YOU SUGGEST IT HAS NO ADS!

The league link has four unimposing slots for its sponsors (in the Renegade league's case, EA Games and I've offered one to XWIS) and an equally unimposing google ad banner which is specifically relating to gaming servers, teamspeaks, etc... thereby actually being of potential benefit to players.

Put together, they take up something like 5% of the league page. Troopr's right though - the fact that relevant advertisements you aren't forced to click take up an insignificant part of the page, is a VERY GOOD REASON to instead play on the auto ladder that averages one game every four months with no prizes and no admin to oversee it.

I logically explained why the link on RenegadeCommunity.com is flawed, given the fact it links to a league which DOES NOT WORK, has no set of rules, no prizes, nobody to administrate, and no support of any kind. I suggested that the link be changed to a ladder which is superior in every conceivable way, and YOU COULD NOT REFUTE A SINGLE THING I SAID, AND NOR COULD ANYBODY ELSE. If you could refute my statements you'd have a leg to stand on, but you were completely unable to and apparently you still are.

trooprm02 wrote on Thu, 31 August 2006 10:54Nothing you wanted happened, and its because nobody wanted it

That's because you don't care about whether Renegade clans get support in the way of a functional league, which is your choice. If you did you'd open your eyes and realise the current clan support of RenegadeCommunity.com is pitiful and non-existent.

Techincally its not renegadecommunity's ladder.

Renegadecommunity is just a clone website of the old westwood renegade website. BUT that ladder is the offical ladder for renegade and is still being hosted by westwood. Its like only thing I am aware of, that still runs on its servers (apparnt from the ftp), and that is one of the reasons so amny of use would like to keep it here

When WOL changed to XWIS, the Clanwars.cc ladder was already setup for that eventuality and the league wasn't affected for a single day. That's right: not one day... in fact, not even an hour.

BHS's ladder has been dead for ten months and counting... and none of them gave the clan ladder a passing thought until, wait for it, Clanwars.cc earned a mention in Renegade's MOTD (which, I might add, Crimson tried extremely hard to stop... but failed)

So yeah. You put your faith in BHS, and I'll stick with a team who actually cares about Renegade's clan support for reasons other than jealousy.

It's true. About a week after XWIS included Clanwars.cc in Renegade's message of the day, Crimson announced that BHS are going to work on the automatic clan ladder.

Nobody in BHS thought it was important until that message of the day was changed. The ten months of the ladder's absolute uselessness did not figure in their estimation.

So yeah, sometime in the future (don't ask me when) there might be an auto ladder again. Just remember that Clanwars.cc's Renegade ladder was created out of a desire to provide clan support to Renegade. BHS's ladder is being created out of bitterness and jealousy. That's not to say it won't suck though, hell, it might be usable.

You said i cheated you fucking dimwit. Not only that, but you were so stupid in-game that instead of dispatching my GDI soldier, which can't do anything against a building with his solitary c4, with a unit instead of an engee, you decided to buy an engee TWICE, thereby giving me enough c4 to kill the hand of Nod single-handedly. Which, I never thanked you about. Not only that, but you were so terrible, that even after the two or more times i killed you, (One of the times where you were so stupid you stood still), I still managed to stay alive long enough to steal a vehicle. Let's take a look at what you managed to do that game vs me. Me, I rushed and killed the hand of Nod, and managed to steal a vehicle and kill some more of Nods. Sadly, my team was incapable of stopping like one or two vehicles. You on the other hand, are the sole reason why I killed the hand

of nod, you cried hacker for some time and didn't manage to do anything. GREAT JOB! Now would you just shut the fuck up already, you stupid fucking moron.

and No, it's not "spying". This is a public forum. Which is besides the point, because why the fuck would it matter to know when the new RG would be released? If it was set to 3 months from now why the fuck would the cheat community care? No, they won't tell a release date because they don't know when it will be done. We've been waiting for close to or over a year for it. I don't know much about programming, but I don't remember the first RG taking that long so whatever, not that i really care so much anymore

That doesn't seem too bad considering I actually did have to move. Although I should concede that moving isn't nearly as good as an excuse as "working on [your] web site."

You never added me on MSN either... strange.

I never mentioned your trip to Europe, but go ahead and bring that up for no reason.

I moved into a new house this year at school and I wasn't able to get internet until September 2nd because of how busy the cable company is in this area around the beginning of school.

By the way, am I supposed to be upset because you're calling me poor? Why are you so fucking stupid. I'm being serious. Do you think that the internet doesn't matter so you just act like a total tard (because I can't really disagree with that) or are you actually an idiot?

BTW, you probably are one of those guys in their 30-40's that have nothing meaning full, so they turn to video games, ROFL

K first of all, good job trying to act cool. I don't know what a fucking "486" is, although I'm assuming it's a computer because of the context. Don't try to act like you're some hot shot teenager and we're all a bunch of 30 year old losers when you're the one bringing up computers no one's even heard of in order to sound cool when in the end you end up looking like a nerd.

I'm 16 years old, in college, taking Computer Science.. Yeah.. I think I'd know better than you what a laptop is, their advantages/disadvantages and whatnot. All I know is that if I wanted or needed one, I could probably go get one tomorrow, but the truth is that 1000 dollars isn't worth something I'd never use.

Anyways, not everyone has the need nor the money to buy a laptop, therefore not everyone can always have access to a computer. But why am I explaining this? It's fucking obvious. The thing is that you know that you're wrong, you're just too arrogant to admit it like it's common with you grade 9/10 morons.

Now, about your website.. It wouldn't happen to be this one, <http://www.trpmclan.tk/> - would it? Because you didn't even make that shit. That's a template you download from well, I forgot the website. And even if you did make it, ANYONE can make that shit. It's just tables and simple photoshop. I apologize for saying that if this isn't the website you're talking about, but if it is then lol, you're a fucking joke.

trooprm02 wrote on Fri, 08 September 2006 19:02That what I said when I saw how you played

Anyone who knows who de7 is will agree to the fact he was one of the greatest players ever. You, on the other hand, are AT THE VERY MOST average - and only to public server retard standards. By that I mean that being average still means YOU SUCK, because compared to even the worst player from the clanwars community, the best public server moron you can come up with wouldn't stand a chance. Stop acting like you know what you're talking about and stfu before you make yourself look even more stupid.

This isn't worth arguing about, so drop it and move on, kid.

Okiedokie, interesting start. This doesn't add weight to your "I have shitloads of money to go places and do things" theory, it either means paper rounds pay a lot more where you're from or you're spoiled by your parents. Try boasting about your financial status when you've moved out of your parents' house and are not 100% absolutely dependent on them, as you are now, and maybe you won't look so much of an idiot.

trooprm02 wrote on Fri, 08 September 2006 14:55BTW, your webiste design is crap, im like what? 15-20 years younger than you and have a better website (+no ads)

Firstly I'm 24. If 24 minus 15 falls into the "15-20 years" category in your mind then I guess I studied a different set of mathematical laws as your education provided. Assuming you actually are currently undergoing education, and I wouldn't be at all surprised if you are not.

Secondly I didn't design the layout of clanwars.cc. I am involved with several aspects of it, but I did not design it. I suck with image stuff and I couldn't code my way out of a wet paper bag... on the other hand if you want someone who can run a league professionally, I'm your guy.

Thirdly your website is not better than Clanwars.cc by any stretch of the imagination. Yours is a haven for a tenth-rate clan who sucks at the game, doesn't play clanwars, is beneath most people's notice, and serves no real function at all. Clanwars.cc is a set of superbly run, competitive leagues which is responsible, along with companies like EA, Zboard etc, for giving away THOUSANDS OF DOLLARS' WORTH OF PRIZES A MONTH to players, and asking nothing in return (other than reasonably good behaviour and adherence to rules). It is also a haven for the best players each of our featured games has to offer, Renegade being a prime example. I could also make a long, long list of extremely good players who would freely state that they almost certainly would have quit Renegade for good were it not for Clanwars.cc.

Oh yeah, we also seem to be the only ones who give a shit about providing clan support to Renegade, considering the fact nobody else has offered a league for over ten months and counting.

Fourthly, if that's a word, I've already ripped your "ads" argument to shreds, but we've seen many a time on this forum that every time you start an argument and lose it five minutes later, you appear completely oblivious to how much of an idiot you're made to look and stick to your guns, even though they don't seem to be loaded. It's happened often enough already, over numerous issues and by several different people, for the pattern to be conclusive.

How would the words geek and loser describe me if I play video games like twice a week, for very short periods of time AT THE MOST, and you spend every single night working on a website you stole, playing renegade and posting here? You're an idiot.

I don't really need to bring the sports I play, what I do with my time and all the shit you've brought up because I have absolutely nothing to be ashamed of. You, on the other hand, felt urged to talk about the sports you only claim to play to prove to some "grandpas" that you're not the loser you've only proved yourself to be. You get what I'm trying to say (probably not, you're a total moron)?

Oh and lol, don't go around saying you can beat people up online, because not only are you only in the 9th grade, it makes you look like the sad, pathetic kid you've grown to be

You know you're a loser when you start sending out threats to those you don't know.

I think you've already unwillingly proved that you're the one that's angry, and not MaidenTy1.

The people that post on these forums, well aside from an obvious minority, are total morons and don't understand the concepts MaidenTy1 brings to the community because they really haven't experienced Renegade for what it's supposed to be yet. MaidenTy1 has nothign to get mad about, and he doesn't live with his mom, he's 24...

You're the one that still lives with his mom (unless she left you, it'd explain a lot...).

Once again (for maybe the 20th or 30th time on this forum) you have no idea what you're talking about. A minority of idiots are making feeble attempts to flame the league I oversee, and I've proved them completely wrong about EVERYTHING. Just like your pathetic attempts in the clan section...

trooprm02 wrote on Mon, 11 September 2006 14:41and your mommy is tired of dealing with your problems as a result of that

The difference between you and I is you are completely 100% dependent on your parents, and you would struggle to last a week in the big bad world without them, considering how inexperienced you clearly are about life and the outside. "HI, I'M 15 BUT I DON'T DEPEND ON MY PARENTS"... funniest thing I've heard all day tbh.

Just because you started an argument and lost it doesn't reflect negatively on the other person's life, sorry... I see you're still pretty angry though, because every time you're pissed off at something you use this: ' '

^^ lol, says hands down the biggest loser in the clan section.

Look at yourself. You start infantile arguments here all the time, you lose every single one, and you have a nervous breakdown when you do. Then your only defence is "LOL AT LEAST I HAVE A LIFE" when the truth is you're here more than most of the people you're feebly arguing against, and take it infinitely more obsessively.

Go get some fresh air and make some friends.

Of course there's a use.

You made a feeble attempt to start yet another argument, got owned yet again (I don't think that's ever not happened on this forum), and got so angry that you said you'd "fuck you up in real life". That's when you need to seriously consider suicide.

The use is comedy for the rest of us.
