Does someone know where I can download a standalone version of the Server Side Corepatch 2 for WinFDS? Cause I have CP2 installed with Renegade. I heard the Xphaze Server is running Corepatch 2 on their server. I want that too, but I don't know where I can get it. If you have it, please send me the link.

You will need this: <http://www.renegadeforums.com/index.php?t=msg&th=18803&amp;start=0>

You must have missed the Core Patches section of the forums:
