I was on Kamuix's C&C server, and I got kicked for pwning.

Some n00b, PowerTR, thought i was using the Kamikaze Hack, whatever that is.

If you know me, you know I've never cheated in Ren in my life, not even LAN exploit.

You know a game has been overrun with n00bs when they think skill=omfg h4x!!!11

Well, that's my rant for the day. Thanks for listening.

You could of came to me about it, he must have vote kicked you because there is no one named "PowerTR" that moderates in my server   lol.

But yeah you can always come to talk to me or another admin if you have any problems/need to be unbanned for something you didn't do

He was detected using a repair hex on a Gamez0ne server.

Well thanks.

And yea, I was vote kicked for using the Kamikaze cheat, which I had never heard of, until I asked someone, and he said it was when you die you also explode like a nuke beacon. So that makes that even more funny.

I was on your server, 3rd of about 20 on NOD, 5th overall, when PowerTR decided to votekick me for the Kamikaze hack. At the time, PowerTR was around 15/19 on GDI, so him and 2 other low-rank GDI's voted yes, with me being the only no vote. Some teammates...

But yea, I was only kicked, I rejoined like 2 mins later, but my score and money were gone, so I just left, having better things to do, like make my sig.

Yea, so thanks for the help and stuff.

I would ban you for use of the word [for lack of a better word] 'pwning' personally...

And afaik kamuix uses the latest build of the BRenBot beta, so it would need a lot more than 4 / 20 people to vote to kick you. Most likely a lot of people voted using page up/page down, which you cannot see in f2 chat, its like private voting.

Well considering I don't run a server it's hardly going to affect him, is it?

At the time I got kicked, I was PM'ed a wonderful message saying I had been "kicked from the server for use of the Kamikaze hack by a vote of 3 to 1." Or something to that effect.

Well you'd be abusing your administrative powers then, wouldn't you?

That must have meant by a RATIO of 3 to 1. So the vote count have actually been 6 yes, 2 no, or 12 yes, 4 no. If the BRENBOT needs a minimum of, say, half the players to vote, my guess is that the vote was 12yes, 4no and the server just rounded it off to 3:1.

Maybe it was the ratio that was 3 to 1, but I doubt it.

And yea, the matter has kinda been taken care of, but thanks anyway.
