lately renegade (on my computer) has been mucking up and randomly getting kicked off servers by renguard for corrupt game exe. i have even been kicked for "lan exploiting"? what is that? that aside, i decided to reinstall renegade.....but i have lost the case with the serial-is there a legal way to aquire one?
p.s. the receipt was in the case

Have you uninstalled yet? I think the C and C serial changer tool allows you to view your serial.
got link
