i was playing on GD server..

someone named irashiva started threatening me after i owned his havoc and orca..

he told me he will get me banned from rg if i dont let him test me..

i used rg like since it was out..

and i had rg that day too..

so no matter.. i told him he can test me whenever he wants..

he didnt respond.. he kept saying he will get me banned from rg..

i said again test me.. then he left the game..

i also have a few screenshots about this..

so im just starting this topic for the record..

ive also been tested by GD server admin once..

heres the topic about this test on GD forums..

<http://www.gravediggaz.net/forum/viewtopic.php?t=203>

u can also see the screenshots about irashiva below...

K4I3I I looked it up, but irashiva doesn't seem to be a part of the renguard team. -talk about bypassing RenGuard removed by moderator-

So:

Just go on playing, ignore irashiva and play the best you can. And ooh sorry to tell you now, but

i'm tcusniper, also from renstation.net AOW server. I blamed you for cheating, but now I see this I believe you don't . I hope those S\*\*\*a's will unban me when my models are allowed and I can go on playing with rg.

Rofl... irashiva is hardkil.

Blazer wrote on Thu, 03 August 2006 00:35Just thought I would chime in to say that the person posting as "{IRA}IronHorse", has logged into RenGuard from the EXACT same IP using the following names:

hardkil  
sxhpappy  
irashiva  
eaadmin10  
squad145t

You can safely ignore anything said by this moron.

Reminds me of this one random guy who joined my friend's dedicated Gmod 10 server. He kept saying it was his server and that I was going to get banned. I finally just told him to try to ban me, and he said "okay" and left the game. Retard.

I think claiming to be a RG admin should be worthy of a RG ban.

God damn you're retarded. Who the fuck are you to blame people or cheating anyway and apart from anything else, I thought you weere the self proclaimed font of all cheat related knowledge, how could you possibly blame someone for cheating without following your extensive cheat testing procedures?
