ROFL, you know why he didnt post SS's? HE WAS BEING RAPED   No skill, the funniest part, the whole n00bstory just made it look like hes some 12 yr old emo kiddy, who has nothing better to do in his life that write essay like stories about a guy who PWN'd him? LMAO, I start off the map goin for his harv, i own his ass in a soilder battle (he got like 25 armor off me thats it), continue getting his harv, he gets another soilder and i PISTOL him (cuz no more ammo, all spent on harv). At that point, im surprised he didnt say, "u h4xR!!!111". Got a med, he got a laser chaingunner (ROFL), got him in the ref fast, he goes to refill and he just continues refilling while I just keep hitting up on his hon. Anyway, he finally ends up doing some dmg so i have to repair, but I got engi so he dmg's me more than i repair. Med dies, get another, then I say:

[16:52:13] trooprm02: no harv walking..
[16:52:18] trooprm02: or ref hopping
[16:52:27] trooprm02: no building/map/vechiles exploits

Which are obviosuly simple rules that we also used against CW's against WoQ and etc. the next time i see him he buys a buggy and tries to get behind my harv but gets pwn'd by the agt. KEEP

Who are you to say what the rules are halfway through a game? Considering they aren't typically accepted clanwar rules anyway?

trooprm02 wrote on Thu, 04 January 2007 12:37Next 30sec's, he wall hop's to my ref, GG
Prove it, considering wall hopping to the refinery ON YOUR OWN would be quite a surprise to most people. If you can't prove it, you were wrong to shutdown, and that means you lost.
Kicking/shutting down a clanmatch/1v1 without clearly admissible proof of rulebreaking means YOU LOSE.

I'm still waiting for the 1v1 you asked me for months ago and I accepted... then I asked about 4-5 times when you wanted to play, and you didn't respond.

Are you kidding, NOT wall hopping? Its a clear map/building expoit, I dont think westwood design the map purposely so inf can nuke the ref by wall hoping to the left to reach the cornor with minimal dmg from the agt, thats a glitch plain and simple, and he admitted to do that so...

First off bud u never stated rules before the map started... second of all ur ss show in about 1 minute I had almost caught up to u. Third GDI can nuke the ref without taking an damage wat so ever from the ob. 4th if u were so worried about it behind a wall jumped nuke why didnt u just sucide and run back to the base to check u. Or atleast run back to base u had time u never investigated and, as u call me a 12 Yr old, so wat is ur age trooprme02? U have yet to answer this question and until u can prove ur not 12 or ur not 30 as u say both of those are bad ages to be on the internet at. So wat is ur age?

Damn you are retarded, everyone thinks you are the retard here, this entire community is laughing at you.

Wall jumping is when you jump over a fucking wall you moron with the aid of a second person, not walking to the ref and placing a beacon (sometning GDI can also do)

Harvy walking isn't banned in clanwars, only in your faggot server - but then nobody would expect you to know that because you never play them.

You ran your mouth, talked shit, chose the server and map and still got raped - GG.

Just to reinforce what has already been stated:

It's not harvy walking if you aren't walking.

It is possible to place a beacon next to the wall and still destroy the refinery. No wall hopping (or using any sort of glitch) is required to get to that position.

My profile is wrong obviosulty, i wouldn't be playing video games at age 26, I leave that up people like pirate. Pirate do you hate me cuz i 0wN u? I think you should quit when u get raped over and over, (in my serv remember your 2/7?) is a hint to stop playing

And he did wall hop, (which refers to the action of hop'ing along a wall), and as able to nuke my ref by doing so which IS a exploit. BlackIntel is just another example of this, creating a fix for the client side to fix this problem

P.S, jball or w/e, if u wanna 1vs1, anytime

A 1v1 doesn't prove anything. Personally, I'm not that great at Renegade, but I don't need to be skilled at a game to know that you're a bumbling idiot.

Also, there are gamers at all ages. Why do games have to be age-strict? They don't. Just like you don't need to be 60 to enjoy golf, you don't need to be 15 to enjoy video games. Grow the fuck up.

trooprm2. For some reason, I don't think your even 10. You can't spell for your life, you always accuse people for hacking, and as j_ball said, you don't have to be old to enjoy games. I asked him for a 1v1 b4, when I played renegade, he never answered me back. Now I ask him for 1v1 xbox, he chooses game, still dodge. But I am angered at the fact that troop hates adults playing games? I don't think he likes adults cause of his parents, every time he fails something, he gets a spank. (oops, i forgot, he gets irritated at the word spank, lol!) And I think it angers him to see adults overpowering the internet aswell. (Overpowering in a good, responsible way.)

Just think about it. Where renegade be without crimson? Or the ADULTS programming RG.

They waste their own time, for the sake of idiots like troop, so they can enjoy a game. Renegade is great, it would not be alive right now without Crimson, fl00d3d, j_ball, Nightma12 (still have doubts about him..) and other great people in this community. Where would we stand without adults?

I think Spoony said it best: if you leave a war you forfeit. That is exactly what I was going to say but he beat me to it.

If you left, what grounds do you have to say you won? You have no proof of him cheating or breaking the rules ... yet you left.

(1) Strategically driving a vehicle behind a harvester so the AGT rockets miss you a few times is NOT harv walking. If a flame tank did it, would you call that harv walking as well? Or what about on hourglass when nod players hug the wall so the AGT doesn't hit them as much ... is that cheating too?

(2) Though anything is impossible, I find it extremely unlikely that in a 1v1 someone would even risk trying to do a 1 man wall jump where possible (if possible) due to waste of time. In 1v1's there are a couple very important things that are key to winning, one is timing and the other is having a general idea of where your enemy is at all times. It would have been counter productive for him to waste time wall jumping. Not to mention I am 99% convinced he did not (could not) -- especially since you left without a shred of evidence. If you had come back to find it and knew it was over the wall then you would have taken a screenshot of that just like you did of the other things.

This reminds me of the other day when you told me that the former "trooprm18" was a known cheater and the proof you sent me was of "trooprm14" (and even at that, the proof didn't really prove anything). You really need to look at yourself in the mirror and be more realistic.

Oh, and I don't appreciate being called names because I'm a 25 (soon to be 26) year old adult gamer. At one point you asked to join MY community -- not the other way around. Maybe if you were a little older, organized, and experienced you'd have a community of your own and I'd be joining you... And don't forget that this game was CREATED by adults who make games for a living. If adults never had any sort of entertainment or recreation they would lose all creativity and sense of youth. I pride myself on the fact that I can live out my inner child in an appropriate way. I see absolutely nothing wrong with it.

Subject: Re: Trooprm02 owned :P

PS> +TRPM+ used to have a large public server from AOhost that was stable when trooprm18 was in the clan and paying for it. Now that trooprm18 is no longer in the clan, trooprm02 is left with no money for a server and is forced to run it from home. That would explain your KBPS problem.

Subject: Re: Trooprm02 owned :P

How you can say 0x90 isn't an idiot is beyond me...

re: 1v1's not proving anything, I'll repeat a post I stated on the CW forums the other day

Quote:1v1 does prove skill of a kind... quick thinking, the ability to capitalise on an advantage, pistol/tankskills on some maps... and since those do win you games, I'd say you can define them as skill. Yes, there's far more to Renegade than 1v1, but saying 1v1 doesn't prove skill is just plain wrong.
Nuking the refinery on Field is a glitch/exploit? I can understand someone's objection to hopping the wall, but just running there next to the wall.... wtf?

Btw troopr, if you ever feel like making good on the challenge you issued to me ages ago, I'll play any time you say... and if you want GDI Field with refineries exempt from nuking, that's fine by me...

you were asking me for a 1v1 repeatedly, then making fun of my age which you accused me to be 30 or 40 years old (Don't remember nore do i really care). shortly after that you started flaming me and him constantly for no reason, going on about how our lifes were shit becuase we didn't want to play you in a 1v1, makes sense? i think not..

---

you shutdown a 1v1, none of you won, just shut up it's a stupid video game you are taking to the edge becuase you have to be better at everyone in a 1v1

pathetic

if one of the two players shutdown/left/kicked without clear proof of rulebreaking by the other party, then one of the players did win - the player who didn't shutdown/leave/kick

trooprm02Renegade Background: My uncle from Austria was beta testing the multiplayer online phase of renegade. He recived the full release before the North American release date, and I required it from him. I installed it at a friends house (trooprm1), and we both played our first ever map there (Glacier Flying). We were just using an MRL to attack the ob, no one was really doing anything consider it was new at this time and no exceptionally good players exsisted. Anyway, we got MVP that game and I got hooked so I took it home and we played in the same server while talking over the phone. This time I got MVP again, (Walls) and I remember being alot better than everyone in that entire server (at this point I was playing 1st Person, no skins were avaible, and I didn't know how to even take a SS) which got me thinking about how far I could take myself with this game. I soon after relized I appearently had a natural talent for Renegade, and eventually ended up joining the +ILL+ clan which also first got me thinking about playing for more competitivness instead of just fun. I was the #1 sniper in the clan, one of the highest ranked players on WOL, and an overall recognized player. In any case, +ILL+ was the best out there at that time, untill it died, and thats when [+TRPM+] was born. And I have sworn in the past that I will be the last Renegade player in all of the community, even after everyone has left, and thats exactly what I plan to do.

Just lol.

Wow, thanks guys for hitting my site glad to see its getting more and more viewers

Btw, if you dont know (which you dont), glacier flying was meant to be added to the map pack for online play, you'd know that but crimson banned AFK from these forums, and I forget the full story of what happened to that map, but anyways. Like I said, it may have shipped with the EU beta, idk but thats beyond the point. I also like how this thread has been made into 3 threads which just goes to show im pretty much the most #1 talked about player on ren (or atleast on the forums), so thanks alot @ll for that

P.S Dave (aka ghost, aka sarge) when did u ask me for a 1vs1? Stop bullshitting yourslef, kthnx

YOU COULD NOT USE/PURCHASE FLYING VEHICLES IN THE INITIAL RELEASE OF RENEGADE. ONLY THROUGH A PATCH (MONTHS LATER) COULD YOU USE FLYING VEHICLES. NOT IN THE US RELEASE, EU RELEASE, OR ANY OTHER RELEASE OF RENEGADE.

Good point, hmhm. Does just glacier exsist w/o the flying? Anyway, the techinically was only my first fully game, I came into the room at 1 time, and i watched + played for like 5min, so I didnt count that. So maybe btw they had this "patch" I had just installed it locally. Glad to see you care what map I first played tho

Interesting Renegade fact: C&C_Glacier_Flying was handed over to Aircraftkiller by a Westwood mapmaker, but it was only 10% done. Aircraftkiller finished the rest and it was released in a playable form with patch 1.037, the only fan-made map to be released in an official patch. I know because Aircraftkiller never stopped bragging his ass off about it.

Knowledge is power!

Who cares who the fuck he is. he was related snd doesnt deny being him in the BR BETA forums, surprisingly here only. Anyway, fl00d3d go right ahead, im busy atm, aint got time for this anymore. Im semi-pro boarder and have finally aquired a sponsor (www.mountpakenham.com , a local resort). I know make 30$ CDN/hour teaching people how to snowboard (regular + freestlye) and get paid to just be there and board around. Im going out to a pro AM tournie in march (in smugglers notch, vermont) and I am to busy with geting ready and etc so I guess the clan will be put on the back burner.

Im now wondering how half the people here are over 30, playing video games (some more than others) and find time for a day job (and for a few, family)?

Easy.. it's called balance.

I'm not over 30, but... I work 8:30 to 4:30, get home an hour later. That gives me almost 5 hours to spend with family and gaming. More than enough. Not to mention weekends are free.

dont mean to budge in on this hot issue, but whats your obsession with age and why do you think that people who play vid games have no other life? im 23 i have been playing vid games for years, yet guess what i finished school got a real career going. i work 40 hrs a week and i still find time for going out partying, had a few long term relationships, and still find time to travel around the world and snowboard and do whatever the hell i want. what makes you think that if some1 is 30 they need to put down the games is something i dont understand. if they know how to balance their life playing 2-5 hours a week or mayb even more is nothing and doesnt impact your life. i know that there is a very high chance i will still be playing games in 7 years, and its not going to bother me a tiny bit. its all about doing what you want to and enjoy doing, and if playing vid games is one of them its all good.

you obviously sound like an ignorant immature brat, it seems to me you cannot handle being
owned in a video game so you bring in age, marital status, and whatever else you got there into
the argument. the truth still is we all have lifes (except you mayb) and we know how to be able to
play a video game, work and still have a significant other in our lifes. so i would say your point has
already been disporven by many on here. and the fact that you bring in all these childish
comments like its nice to see people are able to speak english in india is just further proof to your
immaturity level. you constantly ignore all posts asking you to tell us how old you are yourself and
what ever it is you got going on in your life. i mean we can all assume things just like you have
been for the last 4 pages. i personally think that you have no life, have never been with a girl b4
and that you are prob around 14-15 years old based on your comments and childish outbursts. oh
and i bet you got no sponsorship for you amazing snowboarding skills either, now lets see who
else can assume stuff about you for a change

Romaner wrote on Thu, 18 January 2007 10:45you obviously sound like an ignorant immature brat, it seems to me you cannot handle being owned in a video game so you bring in age, marital status, and whatever else you got there into the argument. the truth still is we all have lifes (except you mayb) and we know how to be able to play a video game, work and still have a significant other in our lifes. so i would say your point has already been disporven by many on here. and the fact that you bring in all these childish comments like its nice to see people are able to speak english in india is just further proof to your immaturity level. you constantly ignore all posts asking you to tell us how old you are yourself and what ever it is you got going on in your life. i mean we can all assume things just like you have been for the last 4 pages. i personally think that you have no life, have never been with a girl b4 and that you are prob around 14-15 years old based on your comments and childish outbursts. oh and i bet you got no sponsorship for you amazing snowboarding skills either, now lets see who else can assume stuff about you for a change

ROFL, i was hoping someone would say something. You just proved me right, that my description fits you, and now your trying to deny it after admitting it, GG   Anyone else?

no man, i dont fit your description a tiny bit, you will be lucky to fine one person here on these forums that fits your description. and just for the record you obviously have very selective way to respond to people, since you have dodged every1's questions including my own once again. you wont tell any1 here anything about yourself because you know we will jump on you and judge the hell out of you till you stop ignoring this thread all together, so instead you only see exactly what you want to see in order to be able to make somekind of a response that will make you look smart, but it only makes you look like a try hard. too bad you just keep proving to every one reading this topic how ignorant you really are. because you ignore every thing that you dont have a response to. how mature... and you are a leader of a clan??? wow sure would not want to be in there

trooprm02, if you hate my community so much then get off my teamspeak. Stop hanging out on it or with the people on it.

Further, don't start flaming me and my community because I threw you out of it. If you were still a part of it, you wouldn't have said half the things about me that you did. And since you've this personal I will be sure to reciprocate.

Oh, and for the record, AOhost/TsuGaming made $250+ profit last month and we're putting all of it back into the community via upgrades. Further, I have a level of expertise in a field that you will NEVER have - and I CHOOSE to do something other than that with my life. I spent years in the military sacrificing myself for other people and if I want to 'sit on my ass' and run a gaming community and my fiancee is OK with that then that is my fucking business and not yours.

Omg...
We have someone that cant tell the diff between animes and cartoons?
Cartoons is for small kiddies who cant accept the fact that he gt owned and is one big loser in the internet

Animes is for teens and anyone above the age for teens to watch for their enjoyment.

The BIG diff in cartoons and animes is that cartoons are meant for small kiddies to see and learn a thing or two in life.
Whereas animes juz are for ppl who wanna enjoy some humor or action, definitely not for kiddies.

Explaining all this becoz we have a kiddy here that cannot grasp the fact that he juz gt owned and love the   . Y? He suck it when his mommy is not at home.

Get a life. Stop thinking of excuses. U suck means u suck. U was owned means u gt ur ass owned. JUZ ADMIT AND TAKE IT LIKE A MAN.

And for the record, where the hell is ur clan mates?
Anyone would be kind enough to post a few names here?

lmao yeah just read the 6 pages, I'll just go random.

for starters, you gotta stop guessing fl00d's life bro, its his and aint yours.

and to whoever said brain of a 12 year old i say up yours *guesses anyone?)

troop get the fuck off the TSU gaming teamspeak, and off those servers, there to good for you, renegade is to good for you. Next time i ever get a pm from you like the last one I'll spread it, I've got my SSs and I can sure as hell use them.

And as these guys were saying at the beggining, to shut down a cw is just nubish (you), just cause you get owned doesnt mean you gotta cry about it.

And ill stop with: Age discrimination.... Who cares about age? fl00d alwoud me into his community and I've been in longer then you, and a bunch of other people. I am pretty damn good at battlefield, i play renegade for fun, not this bs renedrama your givin out. I'm 12, I'm more mature then YOU. (Then again anybody is).

bah screw it ill go on

Your server? Your welcome for the shut down yep short planning big impact, gotta love bf2142 tactics aye?

Ref nuking is easily possible without hopping/ob walking. Just have to know how to and your timing.

TRPM is dead in the dust and drivin over by your every day Car, you've got 2 members, you and trooprm1, what a clan ......

I'm done for now, trooprm02, Deril, noob, fucktard, renedork, etc... tough luck bro, get a life, get off these forums and as a lot of these good guys said, go fuck yourself.

Trust me I coulda said a lot more...

Batman doesnt hang out on the forums all day like you do. First time ive checked and no im not
50 and yes i work for a living. So your wrong on three accounts. Your a dick and if i took a vote
on here i sure everyone would agree.

I didn't challenge you to a one on one but there is a challenge on these forums and on others for
you to play spoony 1 vs 1 and you dodge it each and every time. Tell you what you play spoony 1
vs 1 then ill have a go with you but he challenged you first so stop dodging it and just accept the
challenge with you and spoony.

If you respond to this with your normal asshole approach and totally ignore you vs spoony then
thats a no to that challenge.

trooprm02, how about you play the 1v1s that people have challenged you to BEFORE you start
dishing out new 1v1 challenges?

Or do you prefer to just dodge every request to play you ... then make up new requests for others
that you setup at a time only convenient to you, then call them the dodger when in fact you setup
an inconvenient time?

You must really be mindless in your thought process. You seem to be getting dumber by the day.

I addressed this issue above.

Troop is an idiot whether or not he tries to. That's evident in how he was before he started getting
enormous amounts of attention. However, since he's been getting negative attention for being an
idiot, he's been exponentially worse. Either he fell from a building and landed on his head, or he's
putting on an act. The former would be more comical, but I think the obvious choice is the latter.

Heh. Usually people get smarter as they go along, he just gets worse, especially after he realized all of the attention he gets. It's a pretty safe bet that most of this is an act. He's still an idiot, but now it's (most likely) just an act.

Try to fucking understand this:

He's acting like an idiot on purpose. Why? Because he knows he can get attention from you guys.
You are playing perfectly into his ploy. He may be an idiot, but it's not a difficult thing to see that
he can get attention just by acting like a complete moron.

His posts continuously become worse. This isn't normal progression for people. The logical
explanation is also a very obvious one: he's doing it on purpose.

Why is he dodging and challenging? Because he knows you idiots will get all annoyed and pissy
and try to up him one, but in doing so, he ups you. In a way, he's actually being smarter than you
guys.

You can't just ignore people like him who perpetuate problems. You need to go to the source of
the problem (the person) and justify removing them from the forums ... which is what we're doing
by counter-perpetuating this thread.

In sum: he needs to be banned so that he can't start new problems. We can't just ignore him
because then we wouldn't see the lies and bullshit he tries to feed to people and we wouldn't be
able to defend ourselves. Just ban him already.

He has commented numerous times that hes "the most talked about player in renegade"

If thats something that you are honetly proud of, being the most talked about player in a bad way, then your life really must not consist of much.

fl00d3d, your chances of actually getting him banned from these forums I would say is probably pretty slim, based on the fact he hasnt really broken any rules, other then the main rule of thumb of "Dont be a total fuckhead"

Seriously, out of all the people that have challenged him to a 1 vs 1, how many has he played, If hes played any of them, how many has he won?

His clan was a joke from what Ive seen and heard, hes a joke himself, so why waste the time or energy to give him the attention that his parents didnt give him when he was little?

Uhh... no?

Why is he perpetuating problems? Because he's getting a reaction out of you people. Your

'counter-perpetuating' is fueling the fire. He didn't really post much until everybody started to attack him, and now he's posting these unbelievably retarded posts because more negative responses pour in.

Continuing the problem doesn't solve the problem. Banning him will just show that he's successful in getting under enough people's skin. He hasn't broken any other rules. There is the ignore button for a reason.

You've never ever played me.. You claim you played someone on the nick "Ralphzehunter" yet I've only used that nick once on GSA to play on UNRULES LOL. You don't even know what nicks I use ingame.. ;\
I've asked you several times ingame and you've dodged my requests, if that means that I haven't said anything about it then I guess I haven't said anything about it then haha.

Um it did happen about a year ago, prob a little less. So whats wrong with that? the funniest thing is now that you are denying owning a nickname "h34d5h0t" or something similair and now saying, "it happened a year ago!!!!11!" instead of actually denying it happened at all (like you were before), so keep chnaging your story untill you get it right plx

I actually agree with him. You guys have a fucking 12 page long topic dedicated to a moron who shouldn't even have 12 sentences dedicated to him. So the guy's an idiot, he's also an attention whore, and you morons are feeding it.

Troop has made it obvious that he enjoys the attention and being talked about. Why do you people still fall for it? I know you want to press the red button, but every time you do, you drop a few IQ points.

See! If a new guy can get it, why can't the rest of you half-wits?

There are two types of people who flame troop, some need to slit their wrists and continually repeat the same arguments and this concept goes over their head.

Others find it amusing, seen a few people who blatently know what is going on and find the whole thing entertaining when they have a few minutes spare.

Theres a little dancing milk carton that always bings joy to a dumb thread.

To spoony, troop, crimson.

I think enough is enough, Spoony, he will never EVER 1 vs 1 you, so can the whole community just move on with their lives?
Ive gotten my flames in, but people take it to the next level. Troop, forget about flaming me back, calling me a cheater, because we all know thats what you wanna do.
You do nothing but sit here, and make up stories about beating people, with no SS to prove it, calling your Clan "top-notch" and such.
If your not going to 1 vs 1 spoony, thats fine.
But for god sakes it doesnt give you the right to go-
<Insert Smart Comment>

Because, seriously mate, it gets kind of out of control.
Crimson-
I think honestly, this troop bashing is getting out of hand. You normally dont put up with people constantly hitting on others this badly-
I.E. Ack, (thats another story, which i wont/cant get into)
So I think seriously one of two things need to be done, and this is meant in the highest respect to you-
You need to either, poll him up for a ban, a 3 month/6 month, Perm, your choice.

Or, immediately lock threads that turn into "lets bash troop" threads.
Spoony, I dont really have much to say to you, but I think this "Lets 1 vs 1 troop" thing is over,
You've already beaten him morally, since he wont even say your name.

Can we just give this up?

No offense to you, but I see no reason why she should have to do this. It's kind of another one of those "I can't be responsible for my own actions, so I'll have others do it for me" situations.

Is troop causing any harm to the forums? Some may argue "yes" because he's being an annoyance, but in all reality, we have those who keep fanning the flames. The fire isn't to blame. It's those who started the fire who should have their feet held to the flame.

Troop is only an annoyance to those who pay attention to him. If those people put him on ignore

like responsible people, troop wouldn't be such the annoyance. Instead, he'd fade away into the abyss like an old internet fad. Sure, he'll have his flare ups trying to force more attention towards him, but it shouldn't be all that hard to avoid... if people were responsible enough for their actions.

The only reason why threads like these are successful is because you people desire to fan the flames. They shouldn't have to be locked. They should never have to get past the first page.

I think it's time you people use self-restraint and stop defaulting to Crimson to "fix" things that were caused by you.

Why did it take such a long time for members in this forum to come to this realization? But it's good at least this realization was reached!

Renegade is a game...just a game and it will be only a game. nothing else...have fun and not argue over these stupid things.

I read this whole thread and 100% agree with gamemodding:

Quote: i wouldn't mind a 1v1 even though, i normally get pwned by anyone cuz im a n00b im always up for a pwnage.

the moral of the story? take a beating like a man and don't lie to get your self out of it.

It is a game and meant to have fun...if you lose 1vs1, it DOES NOT mean you are a loser. So, play the game, have fun, lose, win, have fun but NEVER argue over these trivial things.

I hope this will be the last of those Trooprm02-bashing threads.

Then again, there are thousands of users on these forums yet only one or two of them stand out as "most hated" in the community...

So to say "people continue to fuel the fire, its not the fire's fault" is kinda bullshit. I see your argument, but really what it boils down to is there are a few people that know what buttons to push and don't know when to give up. trooprm02 is definitely one of those people.

I think a stern "warning" should be made by Crimson to people like this basically saying "Look, you have a 13 page thread going on about how people hate you here -- it'd be in your interest to lay low or place nicer, cuz if the complaints keep rolling in I'll poll the community to see if you should be banned." Then trooprm02 could say to himself "wow, maybe I should tone it down a bit" and then people wouldn't be so pissed off at him. I've tried talking to him on the side, and sometimes it works for short periods of time but he ends up coming back with another flamewar a week later.

In summary, I think that if someone is so incredibly hated by the community that they have a 13+ page thread ongoing about them ... something needs to be done. Crimson, you're the board admin - so what that "something" is, is up to you. I won't tell you how to do your job.

(edited to reflect 13 pages instead of the 8 I had thought it was ... wow, this is definitely in need of some admin attention)

Then trooprm02 could say to himself "wow, maybe I should tone it down a bit" and then people wouldn't be so pissed off at him. I've tried talking to him on the side, and sometimes it works for short periods of time but he ends up coming back with another flamewar a week later.

In summary, I think that if someone is so incredibly hated by the community that they have a 13+ page thread ongoing about them ... something needs to be done. Crimson, you're the board admin - so what that "something" is, is up to you. I won't tell you how to do your job.

(edited to reflect 13 pages instead of the 8 I had thought it was ... wow, this is definitely in need of some admin attention)

fl00d3d wrote on Tue, 22 May 2007 18:41Then again, there are thousands of users on these forums yet only one or two of them stand out as "most hated" in the community...

So to say "people continue to fuel the fire, its not the fire's fault" is kinda bullshit. I see your argument, but really what it boils down to is there are a few people that know what buttons to push and don't know when to give up. trooprm02 is definitely one of those people.

I think a stern "warning" should be made by Crimson to people like this basically saying "Look, you have a 13 page thread going on about how people hate you here -- it'd be in your interest to lay low or place nicer, cuz if the complaints keep rolling in I'll poll the community to see if you should be banned." Then trooprm02 could say to himself "wow, maybe I should tone it down a bit" and then people wouldn't be so pissed off at him. I've tried talking to him on the side, and sometimes it works for short periods of time but he ends up coming back with another flamewar a week later.

Nothing needs to be done by the administration besides telling everybody to quit whining.

So troop antagonizes. So what? That's not against the rules of these forums. He's not the one creating these threads. Why should he be punished because others don't have any self-control?

If I yell at you to the point of where you get pissed off an hit me, you're the one at fault for hitting me. You ultimately chose to hit me. I did nothing illegal. Sure, I am an asshole for antagonizing you, but you're the one at fault for taking a swing.

I'm not saying troop hasn't done anything wrong, either, but everybody else is just as guilty (including myself). We've all antagonized. We've all flamed each other, and most of the people bitching about troop have antagonized him by challenging him to a 1v1 and bitching about him not replying. You were tempting him to reply. You're just as guilty as him.

Those of you who use ACK's banning as reason why this should happen to troop, too. I'll tell you this: I didn't agree with ACK's banning. I'll say it again, everybody defaults to whining to Crimson to "fix" things when there's nothing to fix other than the lack of responsibility of the majority of users. If you don't like someone, that's fine, but you shouldn't flame him and then expect to get him banned in the process.

banning ACK was bs imo.

haha, went back and checked that thread - this analogy is priceless and to the point

Sniper_De7 wroteThere are a LOT of people who like to sling shit, and I have a feeling that if they were on trial, you'd be on the other end of the stick right now. Even Crimson called all the people assholes who decided to join in and bash ack for something in his own personal life. Back then they say he deserved it, well then alright, apparently after that entire whole deal, it STILL isn't square. "you said so and so's work sucks! So I'm going to laugh and sling shit at you for being born differently when it's not like you had a choice in the matter. It'd be like laughing at some guy in a wheel chair for having some disease that took his legs. HAHA - YOU DON'T HAVE ANY LEGS, IDIOT! WHY WOULD YOU WANT TO BE BORN THAT WAY? But, maybe you're right. Maybe comparing someone saying, "your work sucks" to making fun of a person who has no legs is comparable in the ranks of "asshole" Oh wait, actually it would mean LESS than that, because they aren't being voted to be banned while he is. Not that I care to see them banned, but if you're going to say someone deserves to be banned for being an asshole, there are plenty of other people we can pick and choose.

If you are going to ban one person ban all the pricks around here. I can think of other just as if not more deserving.

Unfortunately for your logic, in the real world when people intentionally try to piss someone off and they get assaulted for it, the courts side with the person who was having his personal space violated by an instigator.

In our situation, we have a "police force" figure (the admins/mods), an annoyance (trooprm02), and victims (the community). If the annoyance were to wander the streets of a city pissing off victims, in sight of the police force, it would be expected of the police force to ask the annoyance to calm down or walk away.

Why yell at the people who play fair, don't talk much smack, follow rules, etc? They haven't done anything wrong other than tell this kid he's being a loser for annoying the hell out of them with his bullshit. He is the minority in the situation: the isolated variable of this problem. You have one aggressor/problem-child and nearly a hundred or more victims of his delusions. I just don't see how you can possibly blame the hundreds of victims rather than him. It makes no sense to me.

ACK opposed the governing forces, thus why he was banned. I sincerely doubt it had anything to do with the people of this community demanding he be banned. He was quiet compared to some of these latest annoyances.

I just don't see how you can possibly blame the hundreds of victims rather than him. It makes no sense to me. KKK rallies are protected by police forces. That's a bunch of antagonists annoying an entire city and even the surrounding area. They spew hate and incite anger and reactions from opposing crowds. Yet, as I just mentioned, they're protected by the police.

Even so, here we have the ability to annoy aggressors. Someone shouting and making noise while going up and down streets is a public nuisance, but if there were non-lethal and legal ways of shutting him up or ignoring him, then the police couldn't do anything.

Why am I blaming the victims? Because they ARE NOT victims. They ALLOW themselves to be annoyed and then react to it. They are equal participants in this. Again, all they had to do was click the fucking ignore button. That takes less effort than having to click the reply button, type up their lengthy and "witty" reply, and then hit "Submit Reply". The problem would have been adverted, would it have not?

I could understand one or two people ignoring eachother here and there. But this guy obviously affects more than a couple of people.

Why should 100+ people have to ignore 1 person when the admin could just tell the guy to 'calm down'. If you click on ignore, you can't see all the false, exaggerated, or dumb shit that he says about you. And since the majority of the people on these forums seem to believe whatever they're told - its a credible issue.

For example, I could choose to "ignore" TehPwnerer(Matix) or I could watch him to refute all the bullshit that comes out of his mouth. One solution is passive and the other is proactive. I'm not a passive person.

100+ people clicking "Ignore all posts by this person" takes everybody one second to do.

In real life, that's slander. Here, it's called the fucking Internet.

So under your theory you're saying that people should just cope with ignorant people rather than ask the admins/mods to deal with it abruptly? I would hope that the admins/mods care to make the forums a pleasurable experience. Perhaps I was wrong.

We have to suffer with Greenpeace, the KKK, PETA, etc... in the real life.

Face it, we're all just as guilty as he is of being antagonists and aggressors. Either we all shall be dealt with, or we ignore troop.

Trooprm02: for the most part people say things to you like:
--You're a loser
--You never shut up
--You dodge 1v1's

But for the most part you say things like:
--Personal attacks
--Instigating comments such as "LMFAO" or thumbs up pictures in situations you can't defend yourself on

There's really quite a difference in the way your enemies handle themselves and how you handle yourself.

You really need to tone it down and take things less personally if you don't want to continue to stir up more and more reasons for people to dislike you.

This doesn't need to go on. I'm not on anyone's side, I'm just doing all of you a favor by locking this. There won't be any polls for banning anybody, and nobody deserves to be banned. If you have a problem with a member, there is an ignore button. If a member is actually doing harm to a topic or to other people, then that's when action should be taken.
