admitting to being a fucktard is a good start, have you read the n00bstory about yourself? think maybe coming back here under two different names and having a conversation with yourself should probably be added, how does it feel to be a joke to the community? Link is here btw: http://www.n00bstories.com/n00bfile_view.php?id=6813

Why not go be a gangstar and bust some caps in peoples asses like the tough man you are instead of "testing" cheats in public servers, might get to spend a bit more time with your cousin.

tanner, your caps lock key appears to be malfunctioning. To fix this problem you should disconnect all cables from your PC and drop it off a 10 story building.

Wait, you post on a cheating forum asking for help with the cheat, AFTER you are accused of cheating, and with the SAME name. Then, you come here under a different name and try to + your reputation with lies. THEN you pull a "we live minutes away" (Which is obviously total bullshit, not to mention impossible) on us. Then you complain about us pulling shit on you.

This redefines lolfest.

Ok ok. So lets say we buy your story (I was testing them so I can detect them on others). Tell me What testing measusers did you go through? What did you out? Also why is it you were trying to test 2 cheats at once? By that I mean; On the forum you posted requesting help you said -

"it works i cna get it to work expect i can not get the objects.ddb to work (0bj3ct5s.DD0) i read the insturtion more times then i can count did EACXLLY what they siad and nothing only hacks that work are the ones thats with it why?"

So which cheat were you testing? Aimbot (Which is builtin to a certain cheat) or the objects cheat? But before you say anything, let me guess you were testing them both at the same time to kill 2 birds with one stone huh?

Okies. We'll buy that story. Everyone its obvious he was only using these cheats for testing purposes.. Hahahahahahahaha.

The word ghetto is not slang... its a real word according to the dictionary. It doesn't mean neighbourhood either.

Here's the meaning from dictionary.com :

1. a section of a city, esp. a thickly populated slum area, inhabited predominantly by members of an ethnic or other minority group, often as a result of social or economic restrictions, pressures, or hardships.
2. (formerly, in most European countries) a section of a city in which all Jews were required to live.

3. a section predominantly inhabited by Jews.
4. any mode of living, working, etc., that results from stereotyping or biased treatment: job ghettos for women; ghettos for the elderly.

So from these meanings, we gather that its a densely populated slum (poor part of a city) which mostly contains 1 culture of people, namely (but not necessarily) Jews.

Know your words before you use them.

Also why is it you were trying to test 2 cheats at once? By that I mean; On the forum you posted requesting help you said -

"it works i cna get it to work expect i can not get the objects.ddb to work (0bj3ct5s.DD0) i read the insturtion more times then i can count did EACXLLY what they siad and nothing only hacks that work are the ones thats with it why?"

So which cheat were you testing? Aimbot (Which is builtin to a certain cheat) or the objects cheat? But before you say anything, let me guess you were testing them both at the same time to kill 2 birds with one stone huh?

Okies. We'll buy that story. Everyone its obvious he was only using these cheats for testing purposes.. Hahahahahahahaha.

Have you told any of the Admin on any forum "the way in which you by-pass" so they can close the by-pass.

Pound to a penny says that you have not. Your problem is that you dont want cheats kicked out the game.

I hope you realise that some of us are having lots of fun reading your posts and escapades.

You are a worthless piece of shit that is no better to what I wipe off my shoe. Bear in mind that NO-ONE will ever give you a second chance.

"Ive not cheated in ages" and 3 days prior was your reply in another forum asking for help in cheating.

Hahahahahahahahahahaha, Im quaking in my boots waiting for your insulting reply that will need a linguist to translate.

Try using spell-check or are you such an under-achiever in the English Language that you have barely learned your ABCs?

Personally, I think you may be partially dislexsic, alternatively, partially brain head.

A village idiot with a partial brain, now thats a dangerous combination.

Pissing my pants laughing. WTF does it all mean?

"Close and lock this forum" is the only part that makes any sense.

I see you are too thick to use a "spell check". How the fuck did you get the cheat to work? More
than likely, your bad grammar prevented the cheats from working

Ok i'll buy that and say yeah ok I believe you however, why is it you posted on the CHEATING forums that you could get the aimbot cheat to work but not the OBJECTS. So as I said in my previous post. Which one was you testing? Well actually it doesn't matter because you used two cheats at the same time. How can you possibly test something that has now been altered in so many ways because of the other cheat you loaded.

Too right I am calling him thick when he cannot press the button that says "Spell-check message".

Neither does he tell us (previously asked) if he has reported to any Admin, his method of by-passing so it can be closed.

It appears Tanner does not like answering questions.

The person above me.

It's horrid to look at something like that, i mean, if he speaks like that vocally why doesn't he 'hang with his homies' instead of spending his time on the web playing games and trying to defend himself?
