Yeah, having Windows XP 64-bit doesn't mean everything you have on there HAS to support 64-bit. I see this confusion all the time in this forum...

I know but it has been shown that some programs fail to work (like renguard) due to various reasons.

Anyway, little update: we tested this and both renfds and brenbot work like a charm.

As the "resident lawyer" (I'm not a lawyer, but I get enough people saying I am...), I think I'll add my two cents, and my "piers" (did that on purpose) can decide for themselves.

I see absolutely no chargeable offense here. There has be no criminal action whatsoever. I would love to be there when you contact the RCMP, just so I can laugh with them when you attempt to make a claim.

I'd love for you to post your Statement of Claim or, should it be civil court, your Civil Claim. You don't need to post the contents, just the Top part listing the plaintiff, defendant and which court and jurisdiction it's in. None of that is confidential, and is part of the public record anyway.

Actually, I'm going to lock this thread.

Goztow, if you still need help, create a new thread. Otherwise keep all comments about this to the other thread.
