Ok im trying to make one map be a crazy CTF map, what i want on it is recon bike's for nod and gdi so they can but them,sbh's for gdi,and also the pt icon's for them all.

I have done everything i know and it does not show up in the map.

Im using C&C_Uphill.mix with titant1x's premission im making it a CTF map for the server i play on.

Anything would help ty.

No im not doing the map like that.

I trying to make the map have its own objects.ddb so it only has something on it and its not set for the hole server.

Okay I will explain this step by step:

1. Make a script zone
 2. Attach the script "TDA_CTF_Zone" to this zone.
 - a. For Team ID set the team value for who owns the script zone 0=Nod, 1=GDI
 - b. Max Capture when this amount is reached all building IDs listed will be destroyed.
 - c. Flag_Preset_Name this is the name of the object that will be crated in the zone.
 - d. IDs of buildings to destroy.
 - e. Play_Capture_Sounds would assume plays sounds when flag is captured.
 3. For CtfFlagGold_GDI and CtfFlagRed_Nod you might need to attach a script that disables physical collision if you can not move when you pick up the flag.
-

Ok man i know all that.

My problem is when i change stuff let's say the gunner i make him a stealth black hand ok but when i go on the map it does not work why?i add the objects.ddb to it but it still don't work why?

Warning about temping objects: It can cause the game to crash at weird times.

3. For CtfFlagGold_GDI and CtfFlagRed_Nod you might need to attach a script that disables physical collision if you can not move when you pick up the flag.

If i did it like this than what would i set the following to?

- c. Flag_Preset_Name this is the name of the object that will be crated in the zone.

That is all i need to know.

Ive already got the sbh done.

I know how to set that script up but don't know what to put as the flag I've tried but it crashed.

What would i set the script flag persets to?

The script that goes on the ped what would i set that to?

Set this,

Theboom69 wrote on Mon, 05 February 2007 10:46

The script that goes on the ped what would i set that to?

To that.

Theboom69 wrote on Mon, 05 February 2007 10:46What would i set the script flag persets to?

This could be anything the simple objects presets list.

[View Forum Message](#) <> [Reply to Message](#)

Do not place it in level editor, only have its preset name in the script zone's scripting.

Must be attached to a script zone (sorry for the delayed reply, I lost track of a bunch of stuff recently and haven't been checking all the topics).

If you would like i can make a C&C_Uphill_CTF server side map.

And I'll Release the C&C_Uphill_CTF non server side map.

Im w8ing on my buddy to make some chicken PT icon's If anyone would like to make a GDI Stealth Black Hand PT icon that be gr8.

Your name will be added to the Readme if you help out with this map.
