Because it makes everything bigger for him. I personally prefer to run Renegade at 1280x1024

His view is smaller though, so it compensates IMO.

Whenever you play on Xphaze you can pick up a set of 2 timed.. Anyways half the admins cheat there so its kind of a cheaters playground there, just make sure not to use final ren and you're fine. I've seen at least 3 cases where they've actually unbanned people who actually were cheating or where they were not banned when they were clearly using cheats.. So lets just let tanner play in that server so he doesn't ruin other ones.

enough of this, he has hacked in the past, but none of those ss's prove hes haxing.

on the xphaze server, the weapon spawn can drop a timed c4 pack with 2 (like techys)
if u kill an sbh u can grab their sbh suit and u get 15 min of stealth
and if u kill a havoc they can drop a noobjct, and since were not gay like some servers, they're 4 shot noobjets

NOW LOOK, HE IS PROBABLY THE MOST ANNOYING PERSON ON RENEGADE BESIDES HITMAN, BUT STFU

do u even know who the admins are? besides the yonnie bs, not 1 of our admins have been accused (exept maybe mole, he gets hs's like 80% of the time), besides mole all the admins suck

unless u have some proof to your bs claims, shut your hole

What server is it? I know of no server that has timed c4 active on a spawner, nor do I know of a server that gives a Havoc the ability to single handedly kill a structure.

I happen to be the guy that caught Yonegga cheating, thanks. Xian used *cheat name removed*, and the other admins resigned.. I know Mole doesn't cheat unless he just started it recently. Last time I played a clanwar with him he ended up leaving because he thought I cheated.
