You must start your game, then alt+tab and start the fds.

[edit] Posted at same time as WD, or that XD

And the patch right click "Renegade Shortcut" goes to it's properties and adds +multi at the end.

If your still asking how to fix it then this topic should be locked.

Download the modified server.dat from BLACKINTEL Download page:

<http://www.black-intel.net/index.php?page=downloads>

It contains the thing you want

The first post contains the easiest answer, here's where to exactly put it:

First right click the renegade shortcut, then go to properties, on the second tab:
