As you might notice before, I'm all decided to make this a reality...
I make a promotional video for the 1rst Season of Unseen Dawn Battles, and yes as I said before this is not intended to be good at all, its just to show that I'm really determinated to do this project, I'm still searching people who can join as actors or as server hoster, whoever who can join with me in this, just PM.
And here's the link to the video (Yes is not an OMG video) wich for now is a little test for you.

Please If you want to join with me please PM me...
For now I use WMM obviously but maybe I'll change to a more profesional program in the future as I learn to edit videos.

I'll provide you with webspace, because I have a tonne of it. And I'm generous, contact me via email.

I also have "some" experience with almost ever aspect of modding the game, and while I may not be able to do much for you, I can certainly answer most questions you might have, or direct you to the right person to ask.
