If your screen goes black after core patch 2 installs and you previously had scripts.dll 3.x installed, reinstall scripts.dll 3.x.

Mod edit - updated link to scripts 3.4.4.

where do i find this file i keep getting a blank black screen!!!

this is why i hate RG even when i uninstaled RG its still doing it i even reinstalled Renegade its still doing it any suggestions?

EDIT: Nvm i fixed this problem i installed scripts.dll 3.4.1 and turned off compatible for win 95

Why would you use Win 95 compatibility on a game that does not work on Win 95?
