My community and I need a map maker to build us a map. If anyone has good experience at creating terrain and buildings then please contact me:

I don't know if you have noticed, but on one of the forums there is a post count of -18. Just thought I'd let you know.

OH! I didn't know you were talking about my forum, sorry. Ya, it's just a bug. Whenever I move posts into our Log database it does that. ZetaBoards will be far better, I can't wait for when it's released.

EDIT: I'm still requesting a map maker.

Yeah, sorry, I didn't mean to derail the topic. Good luck finding a mapper.
