I was installing Tiberian Sun cus I wanted to play it... I guess, even tho I told it not to, it installed its version of WOL.

Where can I download the renegade one? I can't find my CD is basically what I am getting at here.

if you want i can email you my westwood one? let me know or if you dont want to do it that way i can zip it up for you and put it as a download for you via my website?

Let me know which way seems more comfortable for you.
