That dialog is a standard windows thing for sending garbage to Microsoft for them to forward to the recycle bin. If you want help you need to tell us;

- 1) What the problem IS
- 2) Whether the problem is intermittent or happens every time
- 3) Did the problem suddenly develop or has it always been there
- 4) Did you install anything recently that triggered the problem

etc etc. Your general PC specs might also help depending on the problem (Operating system, graphics card etc)
