How do you add the +multi. Where do you add it to? Please make specific instructions. Thanks.

Go to C:\Westwood\RenegadeFDS\Server\ and find Renegadeserver.exe

Right click it, and click "Make Shortcut"

After that, Right click the shortcut and in tab "Shortcut" You should see a line called "Target: "C:\ bla poopoo\lol\d00d"

Add +milti to the end of the "C:\bla" thing, Click Apply and okay and done.

Here's an example; "C:\Westwood\RenegadeFDS\Server\RenegadeServer.exe" +multi

It didn't work... this is what the target for my shortcut looks like...
C:\Westwood\RenegadeFDS\Server\RenegadeServer.exe +multi

You should do the same thing, but for your game.exe. The server does not need it.

 "C:\.\XXX.exe" +Cmd-line-switch-here

the " " are important (I think)

Those are only needed if the filename contains spaces, if it doesn't then it does not matter whether they are used or not.

Thanks for clearing that up.
