Post here about stories of cheaters that made it so obvious to you that they were cheating it made them look so stupid.

One i can remember is in MP-gaming mission DM...i was in a 2 against 1 position where i was the 1, when someone else joined and evened the teams out.

Anyway, i was hiding behind a buggy looking out towards the field (this was on m13.mix) when i saw 2 vehicles blow up simultaneously.

Until i saw him, i thought this was someone pissing about with C4, but then a vehicle on a ledge blew up, and then i saw him running up to me, with a pistol out, and destroyed the buggy i was behind in a few hits.

When i mentioned he was cheating, he said i was lagging, and thankfully, he eventually left.

He came back later on when we were on another map. i didn't notice him straight away, but when his points started rocketing i got suspicious (i didn't keep in mind his name).

People started accusing him of cheating, yet he still dismissed it as lag.

What made me laugh is the sure-fire thing that makes you spot a cheater...he got the 0 bug, and when i spotted that and told everyone, he was out the game quite quick.

Best I ever saw was when I joined an IRC channel, and everyone was going "XXX hax!"

So I join the game, and tell him I'm testing him, (map was hourglass) we go into the tunnels, and he one shot kills me, when I'm the moderator. Rofl.

I like those cheaters that you can only notice because of the message:

[BIATCH]xxx got auto banned for damage hack

Those are the cheaters that got OWNED bigtime .

Timed C4. Once you let that go to the others that don't have Final Ren on it looks like they have no weapon, yet to the cheater he's carrying a laser rifle with blamo ammo.

The easiest one ever.

I was in renegade with other fellow AoB members and a guy comes into our server saying he has cheats on and wanted to know if it was ok, he told us all out that he bypassed rengaurd (back when rengaurd was easily bypassable), we took it as a joke then I decided to test him because it bothered me, he 1 shot killed me with a repair gun, so I just banned him when he did that, his name was AFR1CA

iwas on mp sniping server a few months ago and we were all complaining about lag and kept saying lag in general chat, since then it tells you your ping. some idiot joined and as soon as he saw us doing this he goes no lag here.... and types lag. and the server shows his ping as 0.

Once on City\_Flying, an Orca starts attacking the left turret (near AS).

I was a Technician who started to repair it...the Orca kept attacking with missiles but I was repairing it fast too. Soon, another Techy joined me in repairing it.

Then the Orca goes behind the building...he comes back after like 30 seconds and kills the turret with 2 MISSILE SHOTS!!!

he did, but it was as if he knew how to use that lag... since all of us would constantly get headshotted by him, and he would still be behind the wall. i remember it was on canyon and everytime any1 from our team would go into the tunnels boom.  
and i already know some will say we were all just noobs, but these players were actually pretty good and thats really why the server got emptied since no1 could put up with it after a while

Wanna know a stupid cheater?  
BBFCheek.  
ban that fucker!

I went into Jelly, the day that BIATCH was released, (lucky timing, go fucking figure)

So yea, I got banned on that server, blowing up like...everything.  
Got kicked outta BBF, lost alot of respect ingame, whatnot.  
Now, I just play for fun.
