Above is a screenshot where erikboxem (owner of Duke Gaming) was caught using a *cheat* whilst in a Community Game with Gamerz0ne. Note specifically the *cheat* text in the top left, and the names visible through the walls.

I don't perticularily know why it censors cheat names here, but it's pretty easy to see which one it is.

rofl, awesome... where did you find this?

We (Clanwars.cc) played them in a community match and a few of them, Erik more than most, kept calling one of our players (Heat) a cheater because he "used 4 timed c4s on the hand", something logs later disproved... oh the irony

Ofcourse he wasn't on purposely trying to have an adsvantage. He just needed to restart renegade while he had a community match to get *caugh* to work, but that is only a a small detail. My bet is that he had it running all along.

He can come and post whatever he wants, there's no reason to bypass Renguard, never has been and never will be. The Renguard team should ban him from the RG network.

Yes Erikboxem had *cheat name removed*1.33 on.

Why he had it on that is the question:

I was during the fun-war against gamerzone,
Erikboxem was hit twice inside the ref with a 500 sniper,
he was alone inthere.
How is that possible?

To find out who was cheating on gamerzone he put on *cheat name removed*to spectate out who it was.
Smart? no, Stupid? yes, understandable? yes a bit.

Thats it, no more no less,
if you say we won the fun-war becouse off that, well you know why we won.

To make fun or to have some advantage off this situation, that does not suits you,

I am not blaming you guy's for posting the screenshot,
but i do blame some posters for making fun or hurting people.

You can think about the reasons why they post it.

Duke-Gaming is NOT a free-heaven for cheaters,
and we will ban all the cheaters we can find and have proove off.

So in your logic, its alright for me to come into your server with this cheat on to catch other cheaters?

May I ask, how he is gonna catch or deal with a cheater with this?

If he was sniped and killed in the ref, why didnt he look at the IRC logs and see who it was?, simple...

Why does he even have the cheats on his PC?

Understandable?, no.

You can start with banning your server-owner for bypassing renguard in a public server. He will not be able to make up any excuses on this. If you decide to run this cheat, and you are a serverowner, you should atleast have the capacity to think what would happen if someone would find out. Apperently he did not possess this capacity and he is getting punished for it now. Even our moderators know damn well you can't test these things in a public server. In my opinion a serverowner can not afford these mistakes, even if his excuse is legit.

Now now you can't run *Cheat name removed* without leaving and rejoining. Unless he started the match with him, how does he turn it on? Exactly, he had BEFORE he got killed in ref. Now explain that

@iron warrior,

He was not killed inside the ref, i wish he had been.
You need to know the cheats, to discover them.
I don't think you know 1.33 very well, and i am not going to explain how you can see cheaters with it.

@Herr,
Banning Erikboxem is out off the question.
That a server-owner can not afford these mistake, yes i agree.

I suppose you know Erikboxem from the server owners forum,
if you realy think that Erik is a cheater, then you don't know Erik very well.

to be even more specific: it has to be loaded with renegade (right from the start) for a long time now (since 1.3, that was dec 2006 i guess).
which means you have to load renegade with the cheat right from the beginning (or even more: the cheat _before_ renegade) and it will last until you exit renegade completely.
so its absolutely impossible that he turned it on "to search the cheater" just for 10 seconds and turned it off again without exiting renegade (and thus at least leaving the game).

---

imo you caught a cheater there and hes now trying to save his ass.

unfortunately i didnt implement any backdoor or w/e, else i could tell you if he cheated or not

Well, if you have any morals, and selfdignity, you would leave as soon as you would figure out the one paying the bills is a cheater.
Either ban him or leave him, pretty simple. Noone needs cheating serverowners. Specially not hte ont htat are cheating in a community war are pretty hopeless.

Btw, if he only used it to specate a suspected cheater, why does he have a screenshot with himself on it? I mean, if you think up excuses, then please, at least make them look believable.

May i add 1 thing, we didnt said you guys won by erik, i mean, you guys had seriously teamplay
which we almost didnt (first a no leader, i think we would had more with Luna, buit you guys still
probably won) and the lag to some american guys (the Usual stuff, you walk in tunnel, suddenly

---

a 500er spawns in front of you, you try to kill him but no damage happens, and suddenly you are dead + Gameplay Pending).

As my state in our forum, Using a cheat to catch cheaters is kinda strange, its like: using cheats against cheaters. As stated, hes a 'cheat hunter' , so he hunts with that cheat, meaning he uses this cheat all the time in your server?.

Also, if he didnt intended to use, we cant know, he could lie, or speak the truth, only erik himself knows. but running it from start (as mentioned) is needed, shows he intended to use, why load it up anyway then, if you not gonna use. Its like: Starting aimbot, im not sure if im gonna use it you think, but you start it, so it means you probably have a reason to start itL Using it.

The Name thing is an Advantage over other players, if he didnt used other options of the cheat, he still have an advantage over other players, cause they (we) cant see the names, but he could.

Im Not saying he 'owned himself' and that hes guilty, im only giving reasons why he probably used it for other stuff.

I play this game now hm 5 years or more

I saw alot cheaters and pros, this made me very sad to read here that the owner of dg community is / was / or whatever the SS proofs that he was running it in a war. And what I say to this crap is: How can you be so f*cking stupid or ignorant to think that it's ok to run a cheat to find an other cheater omfg. Even if you are sure that a guy is cheating and you don't know who it is, this is never an option to take. You have to use anti cheat software and no cheats to find him cuz now you are not better than the cheater is, even if you didn't used the cheat to win the cw. Cuz I know you didn't used it to win cuz we lost all cw exept fnfalls (= gamerz0ne, latly somebody told me dunno if fnfalls = gamerz0ne huh ?!) well and everybody know that fnfalls are the biggest noobs in renegade history. But what is even more stupid is uploading the SS why did you even took that SS ?!. After losing CWs you just said some words like well we lost but we had alot fun thats what counts, thats your opinion and also mine, thats what proofs for me that you didn't used it to win. Erik you disapointed me like hell cuz I respected you very much but this is just stupid, Someone who has no complexs to run a cheat in a cw to find an other cheater has no complex to run a cheat for any other reasons.

And @ Quake and IR4p3dy0u: why the hate ? Get serious guys peace.

well, why would I don't want to see a cheater hang?
Someone that loads up *caugh* before joining a community war is wrong in any way. No lame
excuses.
The only VALID excuse would be that he told gamerz0ne beforehand, and them agreeing with
that. (or at least some gamerz0ne admin)

hello I am ready to tell you guys the story (dont understand me wrong i know i did something bad and stupid)

okay i was in game on the map vulcano when i got shot like 6 times inside the ref but the guy was not killing me.

I hoped he would kill me but he didnt so i left the game and started up rgh1.3 to see who it was, (i know that was stupid).

I will have to live with that.

But there was a sniper hitting me all the time inside the ref so i used the cheat to find him in only like 2 or 3 minutes.

after that i turned it off, because i couldnt find him.

I wanna say only one thing, i was not using the cheat for the clanwar game, i will never do that because i started this community because i hated the cheaters and love the game renegade.

I am playing this game from the day it came out.

I dont need cheats to have fun or to play the game.

but you know my intention was to find the cheater and not to cheat in the clanwar, and i didnt used the cheat during the game.

like evilwhitedragon said its wrong to do it and i know that right now, i am feeling bad about it like hell and i will get punished for that i understand that completely

But i will never lie about something like this.

if you wanna know my wife also knows why i turned it on she was looking at the clanwar, and she also knows why i did it, but yea its no excuse.

I am sorry that i disappointed a lot of guys, and thats hurting like hell.

I started this community to give people the chance to have fun on this server and help them with everything i got.

I made mistakes but all peoples are making mistakes and they will get punished for that sometimes.

i hope i explained enough atleast i tried

greets erik

You could at least look up in the bunker and see if there's a sniper there

of course you can but inside ref and door closed??? how he can shoot you? but how ever... you can believe it or not but if you think he need to cheat then tell me why? we did a really good teamplay you can see it on every screen shoot and also on postet videos so it will be useless to use a cheat when we still win and that someone say from this guys who you catch by cheating "i only use it to catch cheater" that i cant believe... the most cheater never response or cry i only did it this one time to test it... i play the last years on every server in wol/xwis list and you never saw me cheating and also i hate cheater and is possible that the one or other remember for me with my old name dirkuser3 and when i dont belive the story from erik then i dont will stay there but i know him now a long time and i trust him in all what he say but from your view its unbelievible i know but it is so unbelievible that we can believe it... how he told you why he want to risk all for what he life and his only problem is that he want to catch every cheater all the time but is it not this what we all want? and is it not really hard to catch a *cheat name removed*cheater? and how you catch a *cheat name removed*cheater? if you have more idea´s to find *cheat name

removed*user then tell it please i thanks for every help for that...

thx for reading LGdirk (dirkuser3)

I don't have a log
players are not alowed during a clanwar in th cw channel,
you know why that is.

Not to hide something, but to ensure the players don't have any advantage from irc when they play.
Maybe Rick has.
He was not playing.

Cheating in a friendly community match isn't really that great.

Once you cheat a little, it can lead to a huge fault situation.

Just saying that cheating is a mysterious fact really.

puncuation. so it is hard 4 ppl 2 understnd u sumtimes cuz u type lik a dip twat.

First of all, when did English and grammar become an issue on a gaming forum?

Second, THIS IS TOO FUNNY LOL

I think it's safe to say we can add Erik to a list of disgraceful server owners along with Yonnie and Matix.

His defense has too many flaws. Using the spectate in *cheat name removed*was just retarded. There are many other ways of catching someone suspicious in this situation but you took the dumb way out.

There is 1 slight problem with your excuse. Oh wait, 2.
1. you would have needed to run *caugh* the whole match.
2. If you only used it to find a cheater, then you would've used it in spectator mode, so you would've been in spectator mode for the whole 2-3 mins as you said. While we have an oblivious screen shot of you, outside the refinery, not spectating anyone.

Verdict:

Lmao...

Well, this has been a good topic of selfpwnage,

I have never in my entire life seen anything so stupid. And that's saying something, my sister seems to break everything she touches. Why the hell do you post a screen shot of yourself cheating? Cheating is cheating, nothing can justify having a cheat loaded into renegade. How the hell can someone say someone can't read when "day r tipng lic dis" is absolutely pathetic. Don't even post again, your stupid little tail of your goldfish jumping out of it's bowl, onto your keyboard quiting renegade and loading a cheat. Then a cat jumped onto your keyboard and loaded renegade and joined the server again wont work, here.

gtfo

please don't reply saying i don't have a mirror. hehe. And I know my grammar isn't perfect.

Okies, to go back on topic.

Could the person in question or someone else who believes he was using *cough* to find a cheater answer the following.

1) Even if what you're saying is true. How the fuck is *cheat name removed*going to help you catch someone with WALL HACK? (This is what you're accusing the cheater off) All you would see from spectating is someone shooting. That in itself isn't enough proof to ban someone/catch a cheat.

2) You say he shot you like 6 times.. From a sniper? How the hell is that possible? Why did you refill? if you didn't refill he might have killed you, yes?

3 Not really a question but I would like to see the logs from that game. Don't give me the BS that noone was in the channel during the clanwar because the FDS records all the logs in the FDS DIR.

Good day.

You guys ever hear of lag?

Take a look of this video that was made by one of the Gamerz0ne players.

http://media.putfile.com/DG-communtiy-matdh

That could help explain some things about the shots in the ref. Take note of the one sniper fight in the Islands Tunnels (the one where the Black Hand Sniper is sitting along the left wall)(about half way through the video). He looks like he's just sitting there. The player shoots him multiple times, turns around, and look at his health. HE"S ALMOST DEAD. That could have easily happened with the Ref too. Fix the lag, lose the cheater, and learn to play.

...you cheated. People here take that like murder.

hahahaha ok i read enough here i think... at the end everyone say erik is a cheater and his ass has to be kicked... and when i read every comment here i must still laugh... who, i think form all this people here have use a cheat? for testing how it works in normal game or to find a cheater??? iam sure 100% of you all have use a cheat or is using a cheat like erik to catch cheater!!! oh you can say now: " stupid n00b, i never use a cheat" but i never will believe you that is for sure... no one can tell me he never have use a cheat! of course for some of you its a long time ago but you used it... and now 1 of you/us use a cheat against cheater, now you will punish him for that? sorry there its end with my understanding! it was stupid to make it there in a fun war and you all have the right to say you stupid n00b but nothing more... some of you know him and also you know that we do all what we can to keep the server clean from cheater like you all and by trying that you/we can make stupid things so dont say with out any knowlege about him that he is only a cheater, nothing more... first time where i see the pic i think omg but then i remember me for the fun war and that he told me there is a cheater and i talk a lot with him about this and what ever you say here it change nothing so stop to talk in this art about him... you only can say stupid n00b but ok i trust him in that what he say or no i dont trust him and i will never play again on duke-gaming... but what ever you say he is a server owner and a leader of duke-gaming and all player on our server know what he did and why... some are shocked, other one say ok but at this time i know no one who say i dont wanna play with DG or he/she dont say it... and to make one clear... this cheat is a big advantage for a player he know where is everyone and when he use it from the beginning how its possible that gamerz0ne own our weapons factory? he was close to the wf when the building die... with that cheat he must know it but he dont know it so for me is clear that he dont use it all the time and i know a lot of more situations where he must do things other with a cheat like he did. i was there i can built me a pic of that all... so be fair and if you ask me, is it allow to use a cheat against cheater??? i think YES... ok now cry why i say it but if you

have to go into a war, you dont use the same weapons like the enemy? oh no sorry you will go with flower... so i think now you have enough to talk about it... iam intresting how it go on here... oh and btw dont say my english is bad... i know it but iam german and my little school english is more as 25 years ago and iam sure you understand what i say so dont discouss about some people here for the bad english that is also not very nice... greets LGdirk

I can honnestly say I never used a Renegade cheat. I did, however, use single player cheat codes for Duke Nukem. However, noone was bothered by it as it was in single player...

Not being native English speaking is no excuse for your poor phrases. Use punctuation and start pharses with a capital letter. Make paragraphs to make your text clearer.

I cheated on Zoo Tycoon once to get extra money

I laugh at you if you really believe that 100% of people have cheated at some point, basically I guess that means you are admitting to cheating at some point yourself?

There are plenty of respectful people in this community who don't feel the need to use cheats FOR ANY REASON (excuse) - I have never so much as downloaded a cheat, even to test on a single player game and I have never felt the need to, it's not difficult to spot cheaters if you actually know the game and what is/isn't possible.

all those reactions, it's a pitty

everyone cheats sometimes, some with good reasons, some with bad reasons

erik used it for a good reason, but feels very bad about it he used it

but still, our community is still growning and there are enough players on our server to play

so whats the big deal to discuss this any longer???

Could the person in question or someone else who believes he was using *cough* to find a cheater answer the following.

1) Even if what you're saying is true. How the fuck is *cheat name removed*going to help you catch someone with WALL HACK? (This is what you're accusing the cheater off) All you would see from spectating is someone shooting. That in itself isn't enough proof to ban someone/catch a cheat.

2) You say he shot you like 6 times.. From a sniper? How the hell is that possible? Why did you refill? if you didn't refill he might have killed you, yes?

3 Not really a question but I would like to see the logs from that game. Don't give me the BS that noone was in the channel during the clanwar because the FDS records all the logs in the FDS DIR.

Good day.

That would be very helpful.

If he did leave the game briefly, then he may be telling the truth.

If he didn't, then he's not only a cheater but he's also lied to his own community so they'll risk their own reputations to stick up for him, which is very nearly (but not quite) as pathetic as actually cheating.

look at it this way most servers have anticheat programs, he was ususing it 2 detect cheaters now if he used this maliciously 2 give him an unfair advantage WICH HE DIDN'T then it wud b a cheat,but he did not use it in this way.
THE OXFORD DICTIONAIRY MEANING OF "CHEAT" IS:

• verb 1 act dishonestly or unfairly in order to gain an advantage. 2 deprive of something by deceitful or unfair means. 3 avoid (something undesirable) by luck or skill: she cheated death in a spectacular crash.
ERIKBOXEM DID'NT KILL ANY 1 OR USE THE CHEAT IN A MALICIOUS WAY.

I have been part of thousands of forums threads in my time on this wonderful Internet. I have to say that this one takes the cake for the biggest cluster fuck of stupidity, poor grammar/English/spelling and anti-logic (ok so I made that word up) that I have ever laid my eyes on and spent brain cells on.

He is a cheater that should be banned from everyones server and the the RG network for violating the TOS as per standard procedures for all cheaters. It does not matter if he left or had it on all along. He cheated and some how managed to get caught by his own screen shot. Something I still don't understand. If his server does not ban him then that is their business.

I can't help but laugh as there is a debate going on here that makes no sense and no one really seems to understand. Yet there is a debate.

How the fuck can you spell maliciously correctly, yet completely mispell "when", "you're", "what", "people", etc...? THAT MAKES NO FUCKING SENSE.

Look, we've all agree that if he did leave to activate the cheat, then his story has SOME validity to it. We've all acknowledged that. However, if Mincus proves that he DIDN'T leave, then he had activated the cheat before joining the server and "discovering" the cheater. If that proves to be true, then you and every other dimwit defending him can be classified as brainwashed idiots.

If he DID leave and his story checks out, two questions still remain: why did he have the cheat on his computer in the first place, and why did he feel that it was his job to find the cheater on someone ELSE's server without their permission?

In order to combat cheats u have to understand them, you can moderate better if you understand a cheat and how it works, you can spot cheats easier if you know how they work.

ONCE again i shall say. I have full confidence and respect for Erikboxem he has helped create a great server and has helped create a great community, he douse NOT cheat or use cheats in any way except from to help enhance every renegader's gaming experience, he used *cheat name removed* once to detect a cheater ONLY, he used cheats before in a private server to understand them.
HE NEVER HAS USED CHEATS IN A MALICIOUS WAY.

Ancient_and_forever wrote on Wed, 11 July 2007 12:27Even if he did leave the game for a short period, which he'd be activating his cheat, the question is raised:

Why did/does he have it on his computer?

Guys,..I have known erikboxem for a long time and pretty much made him a mod when he first came to St0rm because he was a nice guy and knew what he was doing. I don't believe that he would cheat on purpose in a clanwar just because I have talked/known him for over 2 years now. I bet that each and every one of you has cheats on their computer. So do I. I only use them to learn about the cheat most of the time and that was only like when I first became a mod. If he had the cheat in before the clanwar...that is a little suspicious but if he left to put it in, that pretty much backs up his reasoning. Erik is a nice guy and I think he only has good intentions, because I do know him pretty well, so I'll have to side with him on this one.

DG abothered wrote on Wed, 11 July 2007 19:39In order to combat cheats u have to understand them, you can moderate better if you understand a cheat and how it works, you can spot cheats easier if you know how they work.

I agree, if you know how a cheat works, you can catch cheaters easily...but it is still wrong to use cheats to catch a cheater...especially since he didn't ask for permission

Quote:ONCE again i shall say. I have full confidence and respect for Erikboxem he has helped create a great server and has helped create a great community, he douse NOT cheat or use cheats in any way except from to help enhance every renegader's gaming experience, he used R G H once to detect a cheater ONLY, he used cheats before in a private server to understand them.
HE NEVER HAS USED CHEATS IN A MALICIOUS WAY.
HE NEVER WILL USE CHEATS IN A MALICIOUS WAY.

You contradict the point of this thread completely there.

You say he dosn't cheat, yet the first post shows clear evidence of him doing this. Your exception is a moot point, since:

A: He shouldn't use that to bypass RG since it is against the agreement
B: If he honestly believed he was using these for a noble purpose, then why bypass RG? After all, if he knew it was noble, he wouldn't have tried to hide it
C: How can using a cheat in the middle of a funwar possibly enhance players' gameplay? IF he was using cheats to find out how to detect it, everyone will have known he was cheating, and it will have been a small, private server, or he'd have used them on singleplayer mode...

There is no way you can defend him for this, and your blind faith in him shows how gullible you are...

There is no non-malicious way to use cheats. If there were BHS would put them into Rnguard.

Funny how my questions are getting ignored, how rude. The amount of people in here that can't actually read a post and reply decently is amazing.

If y'all wish to defend this bloke then thats your right. But don't expect others to agree with you especially when you cannot answer a couple of questions. You have yet to make a valid point to why he was using *cheat name removed*in a funwar. If you say well he used it because he was trying to find a cheat then answer my fucking questions. Would you like me to quote myself yet again?

If he wants to test cheats so he can understand them better and discover new ways to detect them then its easy. GET A PRIVATE LOCKED SERVER. That way you don't spoil someone elses game by cheating. Also, you say that he never used *cheat name removed*in a bad way yet the screenshot clearly shows that he had the EPS/ESP/Whatever its called turned on. (The players names showing up through the walls) I'm 99% sure that thats not turned on by default. So would you also mind explaining that?

Good day.

That's what I did, on the Xphaze forums, in the staff section, there is topic on how to conduct a test (or was a topic), in that topic is a screenshot of me, using *cough*. it was in a server I hosted for one other member of staff to make the tutorial. Anyways...

Did anyone here know that when you use wall hacks, your shadow goes through walls?!

Don't say things before you know the hole story..... this includes Commandosky about the logs (he has them, seriously). We have reasons why we posted this, firstly cause after the event, A mod which im not gonna name (until he agrees) said they would deal with it, but they just defended erik and didn't released any info, like it never happened, so 'denying' it (on a informatic way) so we decided to publish it (which Duke Gaming DIDNT wanted) and to show it, and we

don't pretend to be a badass showing this, its just showing the truth.

'I doubt he would cheat'

This topic proofs he did, he did cheated once (or more).

'imagin that you are using a cheat to caught a cheater, but it get exposed that you cheat at a funwar, and you'r completely banned from the renegade community(all servers and programms)'

DONT cheat then, catching cheaters with cheats is like catching yourself, its your bloody own fault you cheated, so the first thing is not to cheat! (the thing is that he cheated in a community war, if he has cheats on on multiplayer practice or some private server of DG with onlu DG guys knowing he cheats (testing it maybe) i woudnt mind, but he used them in a community war) and if you do, just feel the consequences.

Plain and simple fact is, he used it in a funwar/clanwar or whatever you wanna call it, if he was on
clanwars.cc, this wouldnt even be a damn issue, his ass would be banned the second this ss
came to light.

erik shouldnt have guilt feelings, he knew what he was doing,a nd he was just ignorant enough to
post the ss. Secondly, lets say he did catch this cheater, whats he gonna use as evidence? Well
I caught you by turning on *cheat name removed*and using esp mode to see who had what

I am afraid that I have to agree with this user, who cares!, This argument has gone on long enough, Erik knows he did wrong during the fun war and I believe he is genuinely sorry for what he did but what's done is done and cannot be changed, so lets all just move on and get back to enjoying the game like adults instead of acting like a bunch of school children arguing in the school playground!.

I am not going to say any more on this matter and just get on with playing the game, if there are those who want to continue to argue then that is their choice, but personally I cannot see the point in it, arguing will not change the past, so get over it!.

Dammit, the stupidity of some people here is unbearable.

Why should he be banned if he has not done anything to you personally and he wasn't doing any intentional harm to other players? I agree that cheats are bad, but without a spectator mode or something (like MP-Gaming's server) what was there to use to root out the cheat? IRC logs are good but con-crete proof is more substantial in an argument to back up the log.

I believe erik acted in a perfectly acceptable way since he has the authority to do so. Any of you saying "well does that mean we can cheat to find cheaters" are wrong, since you don't have the right to do so on their server. Since erik is an official on the server, I would see that it is his right to use what methods he can to root out cheaters. Although, he should think a bit more next time before acting so rashly.

Give him a slap on the wrist and send him on his way. Banning is too extreme for this case.

Ok so wtf? Perhaps you didn't read the logs? He never left game. So that means h joined the server with *cheat name removed*turned on. And you think thats fair? And just before you say well how do you know he actually used it to cheat, I will answer with - So its ok for me to join with BigHead but I won't use it?

The simple matter of fact is that you don't use cheats to find cheats and if you do, you certainly don't use them during a funwar.

1) SSGM should be installed on EVERY server. You can disable the features you don't want - the most important thing is to leave gamelog on. It records every bit of damage dealt, player locations, chats, and more. I can't tell you how many times I have busted cheaters by analying the gamelog.txt file. IF in fact the explanation has any margin of truth in it, the gamelog file could have found the cheater.

2) I'm saying this as a server owner, hoping that perhaps others might follow: If you are afraid to leave DG because you have power in the server, I am offering you the possibility of getting a similar position in n00bstories. Just fill out this application here: http://www.n00bstories.com/n00bkicker.app.php and mention that you are a member of DG

looking to defect. Your answers to our application will be very important because we don't know you as well as a player, so keep that in mind. You may contact me via PM if you have any questions.

This is where we disagree.

You don't get it, do you? HE LIED. He and his cronies all said that he LEFT the game to activate the cheat to "seek" the cheater. The logs, however, prove otherwise. He only joined the server once, so he had the cheat activated BEFORE he joined.

So we have erik using a cheat, and lying about using the cheat. What more do I have to say to convince you that what he did wasn't "perfectly acceptable". HE LIED, FOR GOD'S SAKE. THAT TELLS YOU SOMETHING ABOUT HIS INTEGRITY.

Understand this: It may have been his server and yes I agree he can do whatever he wants with it.
If he wants to cheat in public on his own server then thats fine. It'll only make players not return
there anymore. But as soon as you cheat in a FUNWAR (Don't you understand that...A FUNWAR)
you cross the line.

He should be punished like the no good cheater that he is.

Guys stay to the topic please.

I still don't know how you dg people thinks thats its ok to cheat. Even if its just 5 seconds and you
leave ITS STILL CHEATING. Why? Because you have a cheat on during the game. It doesn't
matter how it's used, it's still cheating.

So please, don't even bother to post replies that says "BUT HE DIDN'T USE IT TO WIN THE
GAME". No, don't post those kind of replies, it'll just make you stupid and make us laugh.

One Winged Angel wrote on Thu, 12 July 2007 13:46Dammit, the stupidity of some people here is
unbearable.

Why should he be banned if he has not done anything to you personally and he wasn't doing any
intentional harm to other players? I agree that cheats are bad, but without a spectator mode or
something (like MP-Gaming's server) what was there to use to root out the cheat? IRC logs are

good but con-crete proof is more substantial in an argument to back up the log.

I believe erik acted in a perfectly acceptable way since he has the authority to do so. Any of you saying "well does that mean we can cheat to find cheaters" are wrong, since you don't have the right to do so on their server. Since erik is an official on the server, I would see that it is his right to use what methods he can to root out cheaters. Although, he should think a bit more next time before acting so rashly.

Give him a slap on the wrist and send him on his way. Banning is too extreme for this case.

It is his server is it not? Or am I mistaken here. I find it perfectly acceptable if it is on his server. Otherwise I take back my previous comment.

Logs are too long, so I didn't read. I'm just vouching an opinion based on what I know.

Needs Saberhawk's anticheat..... It blocks 90% of renegade nastys. Pity it is clientside though :\

Well, if it's his server, let him do what he fucking wants with it.
OK, read this slowly and carefully.

1. It didn't happen in his public server. It was an organised community match. If the leader of the opposite team wasn't informed beforehand about the fact the leader of each team is supposedly "allowed" to use cheats - and he clearly wasn't - he DOESN'T have the authority to use it.
2. This is the important part:
HE LIED TO YOU AND HIS COMMUNITY ABOUT WHAT HAPPENED

HE SAID HE LEFT THE GAME TO TURN ON THE CHEAT FOR ITS SPECTATOR QUALITIES - HE WAS LYING TO YOU, LOGS HAVE PROVEN THIS. HE WAS PROBABLY LYING ABOUT THE "CHEATER" ON THE OTHER TEAM TOO, SINCE NOT A SHRED OF EVIDENCE HAS BEEN POSTED TO SUPPORT IT OTHER THAN THE WORD OF SOMEONE WHO HAS PROVEN HE WILL LIE TO HIS OWN COMMUNITY TO MANIPULATE THEM INTO SUPPORTING HIM AFTER HE WAS CAUGHT CHEATING

Don't post again until you've read and understood the reality of that post ^^

Just to repeat something:
Spoony wroteIf he did leave the game briefly, then he may be telling the truth.

If he didn't, then he's not only a cheater but he's also lied to his own community so they'll risk their own reputations to stick up for him, which is very nearly (but not quite) as pathetic as actually cheating.

I'll paraphrase what Spoony said in his big, red letters, so there's no misunderstanding (though, I can't see how there would be).

1. He lied to his community and us.
2. All we have is his word.
3. If he lied, which logs proved he did, his word means nothing because he has the potential to continue to lie.

You don't care that he cheated?
You don't care that he lied to everyone in your community so you would look stupid by defending someone who was obviously guilty?

Is it not more reasonable to suggest that you guys have tried to cover it up at DG forums? As soon as the truth comes out that Erik was lying to you right from the start, it's all "it's over people make mistakes move on!", right?

you're right it's not enough, you can't just say "let's move on" LESS THAN A DAY AFTER YOU GOT CAUGHT CHEATING AND LYING TO YOUR ENTIRE COMMUNITY TO COVER IT UP.

I'm reminded of the fact most of you guys were going absolutely berserk in the community match against Clanwars.cc, when you wrongly thought one of us was cheating. It's different when it's your leader, of course.

That's a bullshit cop-out.

You just don't want to lose your stance in a community. All of the reasonable people here have seen your point, but have argued against it because it makes no sense to support a LIAR. He LIED to all of us.

You say you believe that he's regretting his decision, okay. How about now that he lied about quitting to activate the cheat? If he lied about that, couldn't he have lied about regretting his decision? You can't tell if people are sincere over the internet. It just means that you're a sap.

well it seems clear that those who decided to stay loyal to him are not going to even listen to this. i mean its already been proven.. that he cheated, had the cheat on from the getgo. lied about it and now wants to sweep it under the rug, by urging the members of his community not to visit renforums... what more can be done? nothing!
so this topic might aswell be locked since it has served its purpose. and the only people that are posting in it are either the renforum members that are mad that this cheater is not being treated as any other low life cheating scum... or the people following this cheating server owner that do not question him or doubt in him.

Got it? Ok, shut the hell up about that.

The questioning now seems to lean towards the dumbasses on his "side". Personally, I don't care if you side with him and stay in that server, I don't want ppl of your reasoning infecting the few remaining decent servers.

We've gone from

"He doesn't cheat, he used it just then to catch a cheater"

over

"He doesn't cheat, he uses it to catch cheaters and has it running"

and

"He doesn't cheat, he used it to catch cheaters but he did lie to us about it"

to

"He cheats and lied about it but we don't care because he's a great guy"

Maybe you should name your server "cheaters allowed", at least it'll be clear for everyone.

ok, we'll start with the "I never read the whole story". No disputing that, since you've been consistently wrong with every single post you've made. So you stuck your neck out to defend someone not even knowing what the deal was? Weird.

Now, the "what a bunch of retards you're being". Hmmm. You refuse to say anything bad about someone who cheats in a community match and lies to his community about it so they defend him, but when anyone objects to this pathetic behaviour, you call them "retards". I'd say you've unwittingly revealed just what a low level of importance you attach to honesty and sportsmanship, pretty much like most of DG at this point.

One Winged Angel wrote on Fri, 13 July 2007 03:49Is this getting us anywhere? No...
It is actually, this thread's achieved quite a lot... it's proven that the leader/admin/whatever-he-is of a well-known Renegade community is a cheater and a compulsive liar, and it's proven that just because someone tells you he's innocent in the fact of evidence doesn't mean you should blindly believe him.

One Winged Angel wrote on Fri, 13 July 2007 03:49Should this be locked? Yes... kthxdie

let me explain why people are doing that:

now that the truth everyone except DG knew from the start has been proven, DG still refuse to condemn him. Thanks to this, DG's coming across as a community who DOESN'T HAVE A PROBLEM with cheating or compulsively lying to your own community.

Forum RulesModerators: Respect the decisions of the moderators, they hold that position for good reason. If you have any serious complaints, contact Crimson or Blazer privately. Do not start a public bash-fest against a moderator you don't agree with.
Also keep in mind that you are not a moderator. You do not decide when threads are locked, posts are deleted, etc., and therefore should not post as such in threads. The "Report Message" and Private Message features are there for a reason.

Either way, I am moving this to the Heated Discussions forum.

Haha. Just to clarify, I test .pkgs and experimental scripts in Renegade at the moment but I will no longer be using Renegade to test as the Apocalypse Rising test builds have recently gone standalone. I have never used cheats online. I should really play Renegade a little more often as I seem to always go and play APB instead

Who hosted the community match has absolutely no relevance WHATSOEVER.

I guess if I'm playing a clanmatch and I'm providing the server, it's OK for me to cheat, right? Also fine for me to lie to my own clan about whether I'm cheating so they'll stick up for me?

Stupid geeks... anything to avoid seeing what everyone else knew from the start.

don't get me wrong... I have the utmost respect for anyone who's willing to host a server for clanmatches, community games, etc... I've got a bunch of 'em in my league and they have my thanks. But anyone who thinks they're allowed to cheat because of it is a FUCKING RETARD

Everyone on Erikboxem's side, EVERYONE, has been arguing completely backward...

to clarify that: arguing forwards is when you look at the situation and the facts, and then draw a conclusion based on those facts. That's what everyone is doing when they see the evidence that he cheated and the lies he told to try to get away with it. Conclusion: he's a cheater and a liar

Arguing backwards is when you draw your conclusion first and then look for facts that will support it. And the thing about people who argue backwards is when their 'facts' are proven wrong, they don't abandon the conclusion JUST BECAUSE there's absolutely nothing to support it - they just look for another 'fact' to support it.

Ah, you seem to have misunderstood. I am in no way defending him, AT ALL.

I agree that everyone defending him has no reason to do so.

My point was simply that we cannot ban him from his own server.

Seeing as he has been banned from the RG network, what else can we do besides not play there and hope the dumbasses defending him don't play with us?

Please tell me what would we gain by talking to this erik on a 1v1 basis? Its not going to change our minds. The FACTS cearly state he was CHEATING (Do you not understand that word?) during a FunWar. He then told you and all your friends that he only used the cheat to catch another cheat which we PROVED untrue. But you seem to think he did nothing wrong and everything should carry on how it was before. Are you mad or just plain ol stupid?

I think some months before you have worse hostname like DG and your server was under Duke.

But it doesnt matter.

Ammount of players on Duke server still. I was there last day and everything still. Yeah over Xwis are connected only 5 - 10 players but others are connected over GameSpy or directly.

Next don't forgot it is European Server and currently are holidays.

Maybe old news, but found out that a other DG mod also cheated, on our server -->
bob was Banned by CloudyServ for: Nod Flame Tank destroyed thanks to limewire3 (GDI
Minigunner/Pistol) - Destroy damage: 694.544617. (IP associated with limewire3).

Ban -> limewire3 -> Nod Flame Tank destroyed thanks to limewire3 (GDI Minigunner/Pistol) -
Destroy damage: 694.544617.

Limewire3 = mod at DG server.

This is a ban of 2006 btw (November).

I do not say Duke Gaming is a bad community, only that some mods have a cheat history, but its strange that they ban you when you choose a side, and you dont choose his, and then you get banned, like a dictate where you need to follow the same group or you will be killed or something when you choose the other side.

lol?

I worked before for Duke-Gaming. I made some modifications and also I helped him with some settings because they only started with hosting and I had already some experiences.

Everyone from his community cover him. But I told its true. He used this application before also to catch cheaters.
So he decide to ban me everywhere. (IRC, forum, TS and game server).

why hasnt any server mod lock this topic already it has lost all meaning and who cares about the
past gtf over it. A lot of people here have shown their level of intelligence to be rather low. And yes
i know duke dose have hackers especially stone kirby and today i played there and i got killed by
someone with damage hacks. This is the very last im going to post about this.
