Hey guys.

We over @ Renegade 2007 team are going to be conducting a podcast a couple days prior to the Unreal Tournament 3 release in mid November.

How this is going to work is, the Community will ask questions, and then we will pick the most suitable ones for the podcast. A few members will be taking part, and we will answer the questions to the best of our abilities in full detail.

If you've got any questions you'd like to ask the Renegade 2007 team (whether is be about development, members, engine details, etc.) simply visit this thread for details.
