Hi again
I need to know is it possible to add a new menu like the characters and vehicles menu under the purchase terminal ?
Like when u click on characters or vehicles it opens a new menu with the list of characters or vehicles ....is it possible to make another one ? and if yes how do i go about it ??

Also , whats the Secret Classes (GDI) , Secret Classes (NOD) , Equipment (GDI) and Equipment (NOD) >? What use do they have ? and how can we use it ?

its been done, in APB, but the code for it is apparently bugged, you will have to wait for the next version of it

I believe that the Secret class is where the 'extra' units are. When you type in "Extras" in console, you get access to new units. Simply by holding down left alt and selecting either Characters or Vehicles, you get into new menu areas.

I'm guessing that one of them is the "Secret" and the other is the "Equipment" But I could be wrong..

Oh, i see what he means, you must load up LE, then open Global Settings > Purchase settings then modifiy them to your will, also modifing Team Purchase settings might help.

Characters Secret GDI/Nod = Extras
Vehicles Secret GDI/Nod = Extras
Equipment = not used, pointless.

Congratulations, you found the quote button and contributed nothing to the topic. Well done.

Anyway, putting additional vehicles in the Extras menu would work, but that does not work on ranked servers (AFAIK), and some players might not understand how to get to them.

If multiple vehicles have the same price you could use the alt-models feature to add up to 4 vehicles / characters on the same icon.

Don't forget about the Mutant PTs. Too bad all they do is crash your game.
