I didn't put any error checking in but if this doesn't work then its permissions related.

Its not pretty but it should do the job.

EDIT: Make a backup first!

EDIT2: and if you cant run the program you need the visual basic runtimes:
http://www.renhelp.net/downloads/VB6.0%20Runtimes.exe

File Attachments
1) Project1.exe, downloaded 138 times
