Uh guys, I need help:
I'm trying to get bots to run out into the battlefield like the ones in the Multiplayer Practice map. I want to them to actually run. I use M03_Base_Patrol but the bots walk. Someone please help me!

guys, i also need help with setting tiberium fields. whenever i step onto tiberium fields i never take
damage! except for when i am at the outer rim of the tiberium. do i need to add some sort of
damage zone?
