I personally think this one of the best movies ever made. "How could one go a lifetime without seeing this movie?" I asked as blank faces filled the room.

I grew up on this film and Roach is by far the best side character ever.

Do NOT under any circumstances download this clip if you are not familiar with this movie. I forbade anyone to see this clip until they see the whole film on their own.

For the rest of you fellow fans/other here is the Roach clip:

I very much remember that movie. The movie that scared me the most growing up was Salems Lot. Seems silly now, but floating vampires with glowing eyes scratching at the window gave me nightmares.
