www.renhelp.net is your friend.

To be more specific, to change the names of stuff, you'll need to edit strings.tdb, which can be done in level edit.

There's a link to download the Renegade Public Tools somewhere on renhelp.net, so, yeah.

Just follow the tutorials.

Also, in before another shitfest.

EDIT: This also goes in mod forums, since it pertains to modifying Renegade.

I'm pretty sure that's texture editing and font editing. There's guides for that on renhelp too.

There's probably guides on how to have sex for 3 straight hours with no problems on renhelp, too.
