Step 1: Read the readme that was probably included in it. If there was no readme, skip this step.

Step 2: Extract into your Renegade\Data folder.

Step 3: ???

Step 4: PROFIT!!!

be easier if you wouldve just read the topic the hud was in

need scripts 3.4.4

screen resolution has to be 1024x768 or 1280x720 or ask to be made for a smaller/bigger one
and need to be in the data folder
