I've posted this on multiple boards now.

(Let me just start off by saying, in NO WAY do I mean that all people of a minority or like this, but a good portion of them)

Okay, you know, I have to be honest about something. Being a half black half asian man, I see a lot from both sides of my heritage saying the following:

1. White people are the opressors
2. White people are weaker physically
3. White people are stupider
4. White people are mean and cruel

Okay. I'm sorry. I'm just sick of this.

Nowadays, its slowly becoming the norm to look down on whites as blacks were about a hundred years ago.

I am so pissed off at the fact that the minorities in this country, and across the world in general, act as though white people are: "Weak, stupid, evil devils who just like to corrupt everyone".

I have some news for you. 75% of my friends are white. I've known some of them since I was in diapers. I am so pissed off at how people in general take liberties with whites and then act all hurt and sorrowful if anyone makes a joke or pokes fun at a minority.

I'm going to answer the previous list.

1. White people are the opressors: This is more what people of black heritage say. I have some news for you assholes, white people may have been opressing you about a hundred years ago, but guess what? If whites had never brought blacks over, through a course of events, NONE of the blacks that exist here today, would be alive. NONE OF YOU. Why? Because fate would have turned out differently. Also, let me ask you. Have you ever been to the great african soil? I have. And MOST of it (I'm not saying ALL of it is this way, north africa has some beautiful and peaceful areas) wasn't a very nice place. Instead of sitting over here and eating KFC, heres an idea, go back to your beautiful "non opressive" country and lives with your brothers. Lets see how long you last with the crowds of angry rebel hordes

2. White people are weaker physically: Ahh! This. This is the one which I love most. The new fad in today's world is to make it seem as though not ONLY white people, but asians and south americans are weaker than blacks. Now I will give you, that asians as a group tend to be a lot shorter and develope muscle much more slowly. That being said, I have news for you: Whites,

and many south americans DOMINATE SPORTS. Now, I can tell you something. It has been statistically proven that whites are not only taller on average than blacks, but uhm...I don't know how many of you watch the UFC or World's Strongest Man Competition...But if you haven't noticed...ITS 90% WHITE PEOPLE. Now I'll give you one thing, blacks seem to be extremely prone to basketball. This is not because they are necessarily naturally prone to being taller, this is because this is what many of the kids DO ALL DAY. They sit outside and play basketball. Thus, unlike whites, asians, south americans, etc. they practice a lot more, and thus, get more positions. The strongest people on earth come from places like Germany, Norway, etc. There are very good reason as to why blacks aren't in fighting/weight sports as much. They are naturally built to be somewhat tall and thin. Why? Because being short and fat, tall and fat, or extremely muscular isn't an advantage on the plains where you have lions and beasts ready to rip you apart. As a group, blacks tend to be on the taller side. They are, however, not taller than people from Germany or Norway. Just look up "Human Height" on wikipedia to reassure yourself.

3. White people are stupider: Almost EVERY SINGLE RACE that lives in america has a few douche bags that love to say this. People, don't make your own race look retarded by saying this crap. Notice: Freud, Pavlov, Bobby Fisher, Shakespeare, Sir. Isaac Newton, James McDowell...All of these people were white. I'm not saying that whites are these humongously intelligent people that shadow everyone else, but puh-LEASE. All of the greatest literary and scientific people were yes....White.

4. White people are mean and cruel: I'm sorry. Have we forgotten already that many parts of africa is overridden with essentially, slavelords, taskmasters, and rebels? And the white people are the cruels ones? We all have our day in the sun. The mongolian empire was extremely cruel, the Aztecs were bloody and savage, the German Vikings were ruthless...Need I say more? EVERY RACE has its savage, cruel, and mean. Its called being human.

I'm not trying to say that whites are perfect, but I'm not saying anyone else is. Each and every race has their good and their bad. But you know what? Whites have accomplished more in science, literature, conquest, and furthering the human race more than ANY. OTHER. That TV you're watching, the computer screen you're reading this on, that philosophy book you're gazing at...White people had a hand in it. Just like blacks had a hand in working our farms and plantations, or the chinese had a hand in building our railroads, of the mexicans of today are helping to further our economy. We're all humans, we really aren't so different. I put a white kid and black kid together, I teach them the same thing and pound it into their heads, they'll both do well on the test (unless one has some horrible disability or is just plain stupid). I put a white man and a black man in the ring of equal size and stature. I wouldn't bet on either just because "their a black guy". Stereotypes are the worst thing that has ever happened to the world, and to be honest, it would be a lot better if we all thanked other races for what they've done to help, instead of increminate them for what they've done to hurt.

UH OH, YOU'VE MADE A RACIST STATEMENT, SAYING BLACK MEN EAT KFC!

Disregard anything else that's directed towards any other race, because no one cares.

Also, I lol at how it's racist to say "Nigger", yet it's perfectly fine to call a white man a "cracker". Either one, or the other- Disallow any racist remarks, or allow people to say anything they want. Last I checked though, America was found upon freedom- So it really bugs me that people in America shit a brick over stupid things like Imus saying "Nappy headed hoes" and whatnot. I guarentee you no one would give a shit if he called some white women the same thing.

I don't know what's more racist- Enslaving a race hundreds of years ago, or demanding special treatment because of it, hundreds of years after it happened.

Lmao.

Another funny incident, I don't remember people calling the Romans "racist" because they enslaved innumerable blacks and local italian-esk people to do their work. Oh but wait, they lived a long time ago so its okay for them.

It's just another example of how our society is on a downward spiral.

A Star-Trek-esque utopia is getting further and further out of reach of our race every day.

Yep. At school if you call some black guy jokingly a "mean mean black person"... You're gonna get your ass kicked. But if they call you a cracker, and you beat them up, you're racist still. It's a lose - lose situation.

Just going along with everything. A black guy calls me cracker, oh well. Life isn't over. I don't call black people "mean mean black persons" or anything offensive. I avoid using offensive statements in the same sentence with the word "black," or "asian," or any other possible race.

Responding to a racist remark would only make me seem racist, and show irony and only get both of us in trouble.

Sometimes things can solve themselves, in my opinion, it's just best to don't do anything about it. That's the best way to handle things like this. Someone insults you, you ignore them, they realize it's not working, profit.

Even playing along with a racist remark is bad. It'd only encourage the racist to use it more often.

The word "mean mean black person" doesn't really concern me. They can call each other that all they want. Really, the word is used so much, that it has lost it's meaning.

Complaining about "Black people being racists" is ironically racism itself, honestly. It's almost like a invitation for them to insult us more for our skin color.

So yeah, oh no, they called us weak, life is over.

I just find it odd the association with black people as being "the ultimate fighters"...When honestly, most of the black people I see fight are well...Horrible.

I've been beaten up twice. Once by a 5'7" asian kid and another time by a 5'9" white kid. And I'm

6'6". Go figure.

Well, considering a Star-Trek-esque require the abandonment of a capitalist economy in favour of a "true" communist-style economy, I doubt it will ever be reached.

Note: Russia was not a "true" communist economy, it was state capitalist economy.

Also, yeah, racism is intolerable, but I suppose beating the shit out of someone for being racist is just as stupid.

Personally, I say that if a white guy wants to call a black guy a "Nigger", then the black guy has every right to call him an ass munching douchebag who has nothing better to do than waste his time on racist remarks and is the reason why the majority of the world is a shitpile.

Troop is preeeeeeeetty cool

This reminds me of Troop quite a bit.

Yeah, Because image macros that insult people who are physically disabled is cool.

I'm not exactly sure how good your ability to see is, Ryu, but not only was this taken made from a picture that someone MADE in a blog, if you havent' noticed: The guy has on his pants backward, fake smoke is coming out the back, and hes popping a wheely. And this is coming from a fat guy bearing his teeth and giving the "satan fingers". Yeah, you're right, that is SO much like most physically disabled people. I know I'm so offended by it. (Word of advice: Please refrain from engaging in acts of idiocy in the future).

Back on topic, Troop is still a douche, Troop still reminds me of that.

Yeah, the image is still taking the piss out of physically disabled people, and thus, you're using said image.

way to fall under your own logic.

have a nice day.

Not exactly sure how that causes me to fall under my own logic, consider all you did was just repeat your previous post and add "have a nice day". But whatever floats your little pink boat buddy

Please attempt to E-thug less.

I'm too arroga - Oh shit is that a butterfly?!

Disregard anything else that's directed towards any other race, because no one cares.

Also, I lol at how it's racist to say "Nigger", yet it's perfectly fine to call a white man a "cracker". Either one, or the other- Disallow any racist remarks, or allow people to say anything they want. Last I checked though, America was found upon freedom- So it really bugs me that people in America shit a brick over stupid things like Imus saying "Nappy headed hoes" and whatnot. I guarentee you no one would give a shit if he called some white women the same thing.

I don't know what's more racist- Enslaving a race hundreds of years ago, or demanding special treatment because of it, hundreds of years after it happened.

Lmao.

Another funny incident, I don't remember people calling the Romans "racist" because they enslaved innumerable blacks and local italian-esk people to do their work. Oh but wait, they lived a long time ago so its okay for them. Im learning latin and i have to study their culture to better understand their language, and the romans enslaved everyone even whites meaning early britans..... and other tribes and the people

that they enslaved that were from africa were the persians, which they have waged war with all the latin empires and greek empires for ages back then, dont even go there.

Just FYI, the Romans never enslaved any group of people as a specific race like you said. I was just using the example of "enslaving people in general". The north european races were pretty tough, and not so easily taken over for slavery causes

Chuck Norris is white, therefore your statement in your first post about blacks being stronger than whites is questionable. But then again Mr T is black, so there should be an equilibrium.

I've only once had a racist encounter. I was 12, and someone called a black kid a Nigger. I beat the shit through him. The end. I can't stand racism, or sexism. Just in my opinion, I think they're the worst forms of verbal abuse.

The guy that called the black dude a "Nigger" or the black dude?
