Christ, it seems like no one can make a bit of a joke around this place.

Then again, there are enough people in ClanWars who fit the 'joke' bill nicely anyway, so I don't have to work too hard.

Alright, so basically you have been on the brink of suicide because you get shit on ingame, by anyone remotely tied to cw.cc? K.

Exactly. That's exactly it. My life is so tied to this game, that whenever I lose, I crank up Taking Back Sunday, and sit in the bath-tub, and run the blade right up the highway.

This coming from a guy who has his own clan, a guy who desperately hangs around the clanwars

'smak' forums, who claims he tested a map before it was even created, a rene-tool who will talk total bullshit only to dodge 1v1's issued to him.

This is also coming from a clown who will take a screenie of him winning by a meager amount of points in a game, and then mysteriously leaving, just as his competitors' artillery unit is sweetly positioned in front of the WF ready to take the game.

If anything, you're the one who is going to kill himself over a crappy video-game.

As for you being a better player... uh yeah... you are. Great job buddy, you can point, and click faster than me. I bet you can roll over, and sit, and beg faster than me too.

Do you ever give your mouth any time to say a word? Because you seem to let your ass do all the talking.

I don't think I've ever gloated about being a temp-mod... that's one of the reasons why I always get it. If you can provide an example of me being a dick, I'll be happy to see it.

For what it's worth, chief, I may not be great at the game, but compared to many other players, you're not exactly hot shit yourself...

... which leads me to my next point: How are your 1v1's going?

You mean this beauty?

I think you missed the joke. If that doesn't say self-deprecation, I don't know what does.

Any computer game is crappy, to be honest. It's just not one of my high priorities. I play Renegade, because it's the only game on my laptop, and because the NS community is pretty good. But compared to revving an engine, or cutting through some powder, a computer game is just a computer game. I'm sure you'd agree.

All this because I made a couple cracks about Clanwars.

I love this place.

Thanks Surth, and no, TRPM is a WOL clan, hence our public server on WOL. We were on cw.cc at one point for like a week or something, but they couldn't be bothered, +I did have the time, so I just joined up as a warrior. There's no need to bullshit when I know im right, Spoony might run the league, but he obviously doesn't keep track of everything.

Can't believe i just had to split 3 pages of off topic-ness from the "Fux-clan recruiting" topic...

I want to remind everyone of this forum rule:

Quote:Harassment/Racism/Flaming: Harassment of other members, racism, or any hate speech in general will not be tolerated. Moderators will be the judge of what is intolerable, and what is not. Also, please refrain from flaming other members. If you really must, keep it inside of the Hot Issues forum.

While I don't think the moderators are very strict on this rule, I do think that telling people to "go suicide like their mom told them to" is a bridge too far.

EKT would love to play Troop and his band of merry fuck-tards.

but we wont tolerate shit like:

<http://www.n00bstories.com/image.view.php?id=1211813604&gallery=7431>

Also if memory serves the other team won even with this obvious cheating....

lol also he asked me for a 1v1 before.... and since i was in work, i said how about in a few hours... but obviously that was a dodge.... so i grabbed one of my members to fight him. and he didn't want to use our CW server..... so my member joined the one he requested with like 2k ping and he didn't even show.

I think we should make him the first person to be neutered to save future generations from his stupidity being passed on.

Greetz

LOL @ GOKU. Glad to see you FINALLY admit to me asking you and then you being "busy", quite funny how your story was different a few months ago.

So, if you didn't tell your people to not play us, how come everytime we asked (atleast a few times according to even yourself), what happened? Your story doesn't make sense.

Funny how many people have asked to play, and I'd love to make em famous on youtube, yet not a single one of em has added me, or paged me ingame. Sounds familiar? Ya, because thats what always ends up happening anyways..

Keep talking shit more, but ingame I'll have my fraps running.

Lol. For one, EKTRPG's basically a Renegade server set in the rp2 map with levels n shit. It's more of a Free For All than an RPG to be honest, though. You should try it.

For two, troop, if I were you, I wouldn't be bashing users for dodging (Especially when they have legit reasons to...).

Lol. Way to go, because obviously, playing 3 minutes on the largest map in Renegade OBVIOUSLY shows everything it's worth.

I'm also highly doubting you've ever played the EKTRPG server. It combines MMORPG aspects into an FPS quite well (Still in development of course, but yeah). I'm willing to bet both you and troop only got it and played it/the server for a few seconds just so you could say "LOL I PALY'D IT AN I DESLIKE IT!".

Hey troop, if you're too scared to fight him in your 100% unmodified original Renegade, why don't you take him on in Rp2?

Oh, wait, Rp2 is unfair z0mg :[[

People probably dodge you so much because they know if they beat you, you will tirelessly scour for dirt on them until you find out that they changed their Tiberium color or something in a Skin, and then cry out OMFG CHEATS. Seriously.

I found this thread because such a stench of EPIC DOUCHEBAGGERY was emanating from it.

Edit: Yeah, somehow I highly doubt SS has played it at all. Oh well. Not like we're missing anything great from him.

Modification is for people who suck at the original game so they try to modificate it to their needs, then they can say their good at an aspect in the game, while it's not even one.

He's right. APB and Reborn are for n00bs, and definately NOT for people who are looking for a change of pace after the same gameplay after five years. Only people who suck at Renegade play mods. </sarcasm>

Guessing from your sig you are/have been spending your time creating a roleplay mod for this game, and you really think you are in any position to call anyone retarded?

Hey let's run through this map, but no killing though; that's not what you are supposed to do in this game, right?

Have you ever actually played the map online? It's far from that.

I really hate when people lose sight of what games really are: Devices for having fun. If you're having FUN while you're doing it, mod it for better or for worse however you like, who cares? Games should be relieving stress, not adding it. Unfortunately, they seem to become a 2nd job these days >.>

SS, the official online RP2 server does NOT disallow killing. For gods sake, it's like BASED on killing. The whole fucking server idea is kill a shitload of people to 'level up' and get more weapons, health and armor etc.

But of course, that's fucking lame etc.

lol, they are obviously too shitty/stupid to realize the common sense in anything, hence don't bother with em. Let the, be like sadukar, "I CAN OWN YOU IN APB!@!!!!1113345!",lmfao.

Where's the common sense in priding yourself on being able to pwnz0r someone at a game?

We're in it for the fun, not for the bragging rights and the faggotry that comes bundled with that.

I can't say the same for APB, but Rp2 is about fun. Not building e-penis because you can snipe someone with a Ramjet. Although that does occasionally happen.

Exactly why I stopped playing RPG's I just want to find a game, play it for fun, and leave.

Yeah because everyone seems to care about their "reputation" in a game.

LOL

Many want to have a "clean" (whatever the hell that means) record of their nicks.

I really would not give a shit. I use the same nick in the forums and in-game and some fags take note of that.

I have had racist motherfuckers call me obscene names many times in-game and refer to CnC_Terrace to my native country. The good thing is, I am old enough to not care about that. I just shove that shit under the rug and have some good ole fun.

Resistance is futile.

On a slightly off-topic note, I think every time someone says PLECOS, the test should be bolded, and/or colored differently. Perhaps a lovely shade of pink?

Do you mean like killing a 250 hp suakura with a lame pistol while she has a ramjet means that that the sakura is a noob?
