OK I know this isn't any sort of eyecatcher and won't be spotted for long. But I thought, if many Countries place their Flag on Train Stations, Companies etc -why not placing it on the main Screen?

So I took the Flag of "Nederland" and here is how it will look like=

I have had a look on my Frappr Map and found only a few Countries with Pins. Noone seems to live in South America or Africa etc.

I got over 200 different Flags of almost all Countries all over the World and my Question is:

Do you want your own Flag like this and if yes, which Country do you live at?

I hope I get some replies and if so I will release a ZIP on Saturday or Sunday.

Interesting, but you have a "irish" flag, living out the country?

I will transform the most important Countries into Renlogos. I also have the brand-new Irak-Flag which is valid for one year from now on. If someone likes to have it... *runaway*

And yes, the US Flag will be transformed. And the UK ones, the german ones, the australian.....

please be careful with that This was meant for "I would not take all of the available Flags to cover every Country on Earth". For me, there isn't one Country which is more important than the others.

It's done and I think I've covered about 90% of all Countries where the players come from. If some are missing, tell me. Here are two more Screeners=

And down there is the ZIP. As I was too lazy to create a bunch of directories, you have to rename the file to > if_renlogo.dds < as written down in the readme.txt. Enjoy!
