so i've had gmax for years and never bothered to make a map for renegade, or even try. i downloaded it thinking i would, but after the download i just played around with it (still do, with a teapot i can draw!) so my knowledge of gmax is pretty well.

just need help, like a tutorial, to make a map. anyone have one i could use? i've looked around and some are just stupid and make no sense

peace OuT
