Hi,

I never added some one to my buddy list before who has a long nickname.

So how do you add some one with 20 letters ?

Because I can only type in a nickname around 6 letters...

If they have 20 letters then they are a GSA player and therefore cannot be added to your buddy list. Even if you did add them it would not work because WOL cannot detect what GSA players are doing.

Ok, thought so.

Thanks
