Check website for map rotation

Can someone let me know how to set-up so when someone types "shownext" the next map will show automaticlly?

I asked him already

Check his forums he's putting the "mass owning" club carnage extreme too.

Don't use snipefrag's sig link his is the old one use mine (CnC sector)

I think this server will Own (it's the only DM only server isn't it)

Can someone help this guy out he's doing quite a bit for us.

Think you will need 'Blaze Regulate' it has lots of other functions etc. any server with [BR] in the
description uses it. No idea how to set it up mind.

Belive it or not a comment from blazer would go along way (click link in his sig)

I havent got BR working yet so maybe i am not the best person to talk to but firstly you need the
renegade dedicated server which i am sure you have if not then go to the westwood site and then
renegade then downloads, Renegade FDS (free dedicated server) once you have DLed it then go
talk to blazer in n00bstories mIRC channel he is there most the time PM him and he will proberbly
reply

If your talking about my Temple_DM you can't get outside all that stuff is just for the scenery. You can't get into or past the war rooms as i blocked it off. You can use the jump trick to get to the bottom of the silo (must be a mutant or you die)

Also FYI the Mammy doesn't give any points when destroyed too, and originally the generator to it's left gave 50 points when destroyed, i went to alot of work to ensure everything worked fairly.

Just found out there is a simalar DM in the Tiberium Evolution mod but because it is not sectioned off and is sooo large it doesn't have that frantic close combat DM style feel to it and has no real presets added neither. not being big headed but mine is better.
