JFW_2D_Sound_Custom doesnt work....i dont hear any sound.

Preset and Message is correct.

Any ideas, why?

E.g. JFW_2D_Sound_Damage works...

Solved the problem. Had to clone the sound preset and make it 2D !

Some of the Sound-Scripts work with 3D-Files and make them 2D theireself, some not.

Use the 3D version, it can play 2D sounds, and its easier to position the sounds.
