Does anybody know if you can play rollercoaster tycoon without the CD?

I wanna put it on my flashdrive... Is there a way to edit something so I can make it work without a CD? Thanks in advance...

Seems like these guys have more of an idea.

Maybe if you could find a no-cd .EXE or something, you'd be in business.

Sounds like a cool idea too.

I have RCT and if you install it from a CD, it will not need the CD when you play the game.

It is indeed a great game,

GG.

RCT's campaign is actually fun to play, unlike two, which I found to be a waist of money, a few of 3's level's are fun but it still seems to be more fun to play threw the first one.

I played RCT before I started to play C&C games, great game indeed(although I kinda sucked at it always having negative money).

I just got Sim City 2000 for DOSBOX, Know what sucks? When you can't build Power Plants and residential buildings.

Off topic.. I know.. darn old games and there bugs.

I like the corkscrew follies.... Also I love simcity 2000, however for some strange reason it lagged on my computer. My favorite part was building a giant city then destroying it with the "Star Diaster" button. HAHA LOL ROFL I found a new way to crush bluethen's city! MUHAHAHAHA

I never owned the first one, but I did get the second one and that was fun.

Then I got the 3rd one and that was even more fun cause I could ride everything.

It is fun making dead ends and letting everyone die in a horrible explosion.

...Happy Birthday, Jimmy!

I've been playing it recently and it's loads of fun. I want to play Sim City 2000 though.
