ok how do i make a warhead like on reborns they have DeployWH and ReDepWH

and all normal ones are like

steel

steel_nobuildings

Laser

Laser_nobuildings

anyway anyone know how i can make my own warhead for a map in LE

its a warhead like what sort of bullet your weapon is in ammo

steel

shell

laser

the bit marked in red

inst that the hit? like when its set to something when it hits makes what ever the warhead is?

like the tib warhead when it hits wall makes tib spray come out a little or lazer makes fire when hit something

pritty mutch yes

EDIT: its pritty mutch differant types of strength cos shell strength is what vehicles use and steel strength is what charectors use thats why there aint good against vehicles
