When you use a imagehost like imageshack.us it will give you the code for the image to be posted as a thumbnail

My sister took a random picture of me playing GW the other day, so as well as my desk and my desktop, you get a picture of me too! Aren't you lucky

I have not played WoW in months actually, tried it for a bit but it's not that good tbh. And it's prophecies, I don't have any of the other campaigns

no no.. if it's a .rls txt file for well.. you know.. tsu.. then yeah.. it would be ironic at TSU gaming.. lol

I also got prophecies the other day along with EotN (already had factions) EotN rocks.. bit hard though, but much better voice acting and story.
