pterm_pwr-b and pterm_pwr
are blocking a part of the custom PT pictures, how can i disable those dds files?

are blocking a part of the custom PT pictures, how can i disable those dds files?

Provided they allow alpha channels, just make them 100% transparent.

already tried that, photoshop wont allow me to save them as .dds
any new ideas?

Download/install these;

http://developer.nvidia.com/object/photoshop_dds_plugins.html

I just made the textures black and this is the result:

And the files are below

File Attachments
1) pterm.rar, downloaded 145 times
2) ScreenShot06.png, downloaded 473 times

Purchase Te

I said blank out the alpha channel... What's so hard to understand about that?

```
File Attachments
1) pterm.zip, downloaded 118 times
```

If it's returning black, you're not saving the alpha channel correctly. Try again.

Without editing the W3D file, you can't remove that peice, the only thing you can do it blank it out with alpha.
