I had made up a new idea this evening and decided to make it, I have putten 2 tv screens in the barracks and searched on google for some nice chicks to put on it!

Just like the harvester (which unfortunately didnt work for everyone) there is a rotated screen. I've putted a new video on youtube to show it

So if you ever got tired of waiting for money when gdi, just relax in your barracks because this works online

Youtube link : http://www.youtube.com/watch?v=CrXbgN_v6zc

Download link : http://files.filefront.com/TV+in+GDI+Barracksrar/;11403797;/fileinfo.html

Officer: "SOLDIER! You have orders to mobilize! Why are you still here?"
Soldier: "Yea, yea, in a minute. I'm busy."

How you got the model work in mp? my modified buildings didnt worked for me, jzst vehs guns and chars

And are you just trying to crash us? the bar is crashing my game
like your harvester

And are you just trying to crash us? the bar is crashing my game
like your harvester

Well just find in XCCmixer, you will see some MG files for multiplayer buildings
for barracks search on MGBAR_ you will find a couple of w3ds, check them out in w3dviewer. just
edit 1 that doesnt have much stuff in it so you wont miss it in the barracks.

And by the way madrackz, maybe its because the texture is to big file for you renegade? try delete
those 2 4 mb textures and start up renegade. If it works then, simply make the textures smaller in
photoshop then it will work i guess

Why are the Textures to big for my Renegade?

(im playing renegade with 100 FPS or more)

Maybe it's possibly the German patch that can't handle it? Or his computer even?

Renegade keeps crashing with this file in my data dir
MSI RX2600XT 1650x1050 resolution

I added it to game-maps.net now btw:
http://ren.game-maps.net/index.php?action=file&id=1257

hmmm, odd, still didn't work. I run my game, go to MP prctice (i do that to twst mods and stuff) and when it "finishes" loading, it crashes and shows the TFD menue. Last time you had 2 w3d files, there was only one tis time. That may have something to do with it...
