Hey guys,

Ok, I edited the preset CnC_Nod_Minigunner_0 and adjusted its life and armor. When I fire up a game, I spawn as a Nod Soldier and it stays at the original 100 life and 100 armor. Only when I buy a standard minigunner at the PT, the life changes to what I put in objects.ddb. Can someone tell me how to fix this?

Make sure you adjust the max health aswell. But it works fine for me otherwise.
