Sounds a bit strange, but ive noticed then patch does decent damage on buildings. Several times tried patch rush on atomix with team mates and we almost did it. We would win this but we were just 5 there.

What do you think about it?

Btw. LCG black hand rush anyone?

You'd be better off gunner rushing, lol.

Patch just doesn't do enough damage. His abilities are too spread out to really make him a useful char in regular online games, sadly.

Patch is too expensive to be useful. I only ever use it on rush maps to go nuke, IF I have enough money.

I agree about patch being too expensive, even if you have good aim at long range the projectiles are too slow. Nether less i still buy patches every now and again.  
LCG Black Hand rush sounds interesting and may just work, might have to try and organise a rush.

LCG rush I could see being pretty good. They can tear through armor and infantry, and I'm sure you could walk in and C4 a building or the like. Otherwise, just plain LCGing it to hell would do some decent damage I'd figure.

Lol this has been going on for a good few years. They're ok, not the best but by no means the worst. Pretty good when that's all the money you've got
