Hey guy's

When i installing ren on 18% it say's:

A file system error has been detected

please ensure that the ren game CD-Rom is in the drive.

IT IS !!

What to do ?

thanks Cya

Check the disk for scratches or other signs of damage, most likely the section of the disk containing the file's its trying to read has been damaged in some way and rendered unreadable.

It could also be that your cd-rom drive isn't ok anymore. Test it in another computer.
