Would a modified cameras.ini work serverside? to chance some views of what i want.

If so, is this considered a cheat?

it doesnt work, if not all have the same ini. renegade take sit like a different ren-version.

try so copy a edited cameras.ini in your data folder. you will not see any games in your list after connecting to xwis.

other thing: why is it necessary, to copy a edited cameras.ini into the renegade/data folder???

why it is NOT enough, to have the edited ini in your mod pgk???
