Hi i was wondering if anyone knows a place where you can download the original westwood maps but with AI bots added to them. I have found some good AI maps but atm only people with them maps can join if the are the westwood maps edited everyone could join without having to download the maps themself.

Then download the .lvl files and add bots yourself to the existing maps.

He said he wants AI Bot maps.

He clarified himself by saying he wants maps like "C&C_Field.mix" rather than "C&C_Field_AI.mix"/etc.

That would require a serverside mod.
