Can you guys help me, when I try to run the setup I get "the sorry had to close error" what can I do to fix this or what is wrong here?

I have a 2.0 ghz celeron dual core processor
512 DDR2 ram
256 MB Nvidia GeForce 7050/Nvidia nForce 610i
MSI 456PGNL motherboard 1333 FSB

So what is the problem here?

had it a few times.

formatting ma pc was the solution.

sorry pall

Turns out it was my drive I bought a new DVD-ROM drive today and I popped the disk in and it works great. Lol the other drive had a 'Busy' light on it.
