maybe its not the right forum

but i experimented a little with mip maps and have now this one can you say me if you like it  
and the white looks like a reflection

Essentially low-res (or low-intensity) reproductions of images to improve performance.

Ugh, Wikipedia owns me again: "In 3D computer graphics texture filtering, MIP maps (also mipmaps) are pre-calculated, optimized collections of images that accompany a main texture, intended to increase rendering speed and reduce aliasing artifacts."
